President Will Not Go To Funeral

Heeds Advice Of Doctors On Flying To Churchill Rites

WASHINGTON (AP) — President Johnson, heeding medical advice that he abandon hope of attending Sir Winston Churchill's funeral, has confessed "I don't have the bouncy feeling that I usually have."

Johnson, who said he hoped to get to his office sometime today, summoned seven reporters to his bedroom Wednesday night to announce he wouldn't be flying to London.

Instead, he said, the United States will be represented by Secretary of State Dean Rusk, Chief Justice Earl Warren and David K. E. Bruce, the American ambassador to Britain.

In addition, he noted, such distinguished private citizens as former President Dwight D. Eisenhower would be present as guests of the Churchill family. Eisenhower was to fly to London with Rusk and the others.

Johnson's announcement ended three days of speculation prompted by his own statement Sunday that he wanted "very, very much" to go to the Churchill funeral. His stay-at-home decision came as a surprise to many newsmen who had got the impression from White House medical reports that Johnson was feeling himself again.

The newsmen who saw the President agreed he looked sicker than they had expected. Hair disheveled, he lay in a four-poster, canopied bed speaking softly, coughing lightly from time to time and blowing his nose.

Standing in one corner were three doctors who had just given him a checkup and some advice to do no immediate traveling. They were Rear Adm. George G. Burkley, the President's personal physician; Navy Capt. James Young, an assistant to Burkley, and Dr. W. J.

Tax Cuts Indicated As Slump Insurance

Johnson Sees Prosperity Continuing During 1965

WASHINGTON (AP) — President Johnson, forecasting a fifth consecutive year of rising prosperity, assured Congress today that recessions can become obsolete in the "Great Society" era.

For long-range slump insurance, he asked Congress to streamline its tax-writing machinery to permit "rapid action" on temporary income tax cuts if recession threatens.

The President explained, in his annual economic message:

"A time of prosperity with no recession in sight is the time to plan our defenses against future dips in business activity.

"I do not believe recessions are inevitable."

In exchange, Johnson gave Congress a pledge of his own — if economic growth unexpectedly falters in 1965 despite the 1964 tax cut and this year's proposed excise reductions:

"I shall be prepared to consider additional fiscal action."

Johnson thus indicated that the taxpayers may get still another shot of tax-relief tonic this year — possibly more income tax rate reduction, or broader excise cuts — if last year's $11.6-billion tax reduction, begins to wear off.

The 290-page report, third and last of the major White House messages to Congress, dwelt on no such possibility. Rather, it predicted for 1965 a record national output of around $660 billion, along with unprecedented personal income and profits, some further drop in unemployment and continued price stability.

"We have come to our present state of prosperity without pressures or imbalances that would foretell an early end to our expansion," Johnson said.

"Instead, we look forward to another year of sustained and healthy growth. The unfinished task of prosperous Americans is to build a Great Society."

Johnson asked the legislators to enact quickly his Great Society building blocks. All were outlined in earlier messages.

They included:

An increase in Social Security cash benefits, hospital care for the aged, doubled antipoverty appropriations, a billion dollars to revive Appalachia, extension of the minimum wage to two million more workers, more aid to education, stepped-up worker training, and improved housing and urban development programs under a new cabinet department.

But his No. 2 request — in order of emphasis in this message — was that Congress remove the 25 per cent gold backing for banks' deposits held by the Federal Reserve System. The similar gold "cover" for the country's currency would be retained.

If the economy goes on expanding at the present rate and thus generates more deposits and more currency, Johnson said, the entire stock of government-held gold could be frozen in these "arbitrary" reserves in two years or less.

Prompt action is therefore necessary, he said, to reassure the world that the United States always can make good its pledge to redeem in gold every dollar presented by another country.

Responsible Settlement Also Urged

Cite Uncertainty In Steel As Chief Peril To Prosperity

WASHINGTON (AP) — An appeal for "prompt, responsible settlement" of the steel wage dispute was issued today by the President's Council of Economic Advisers.

The council's report sent to Congress with President Johnson's annual economic message, said the uncertainty in steel is "the chief visible threat" to prospects for steady business expansion throughout 1965.

A long strike would have "unfavorable effects on over-all income and production," as was demonstrated in the great shutdowns of 1956 and 1959, the council reported.

Even a peaceable settlement, if delayed until close to May 1, the earliest possible strike date, would present the hazard of a let-down later in the year, the council said.

Steel-using industries are likely to continue building up their stocks of steel as a hedge *against a strike, the report said; if the strike does not materialize they will stop ordering, so* as to work off the excess supplies in subsequent months.

"Under such conditions, a rapid rise in activity during the next few months might be followed by much smaller advances during the rest of the year, possibly accompanied by increasing unemployment," the council said, adding:

"Thus, a prompt and responsible settlement in the steel industry is important for sustained, balanced advance in 1965."

Military-Civilian Council Due

Oanh Appointed As Viet Premier

SAIGON, South Viet Nam (AP) — Strongman Lt. Gen. Nguyen Khanh made Nguyen Xuan Oanh premier of South Viet Nam once again today and said he would soon set up a 20-member military-civilian council to "advise" the government.

Presence of Khanh-picked military men on the council would give him a channel to exercise control of the government.

Khanh showed continued antagonism to U.S. Ambassador Maxwell D. Taylor, who openly opposed interference by Khanh and his generals in Viet Nam's governmental affairs.

Taylor was out of the country Wednesday when Khanh ousted Premier Tran Van Hunong in a bloodless coup. Asked at a news conference what Taylor's reaction to the coup had been, Khanh snapped: "Why don't you ask him?"

He added: "This is an internal problem. You know from my past actions how important I consider internal matters and national sovereignty. I'm sure the United States will accept any of our actions in the interests of the Vietnamese people, not putting the interests of any single individual above these interests."

His words were clearly aimed at Taylor.

Taylor, who rushed back to Viet Nam on hearing of the coup, has not commented officially. Privately American officials were angry and disappointed.

Khanh told a news conference he would ask Phan Khac Suu to stay on as chief of state until a new government is formed. He said Huong's Cabinet, except for Huong, would remain in office on a caretaker basis.

A report from Washington said Khanh had indicated to the United States that he intends to carry out the election and appointment of a national assembly scheduled March 21.

Oanh, a Harvard - educated economist, returned to Viet Nam from the United States last year to become deputy premier for economy. Khanh named him premier last September after huge Buddhist demonstrations called for the general's ouster. A week later Khanh took the job back and held it until Oct. 30, when a facade of civilian government was established under Huong.

Khanh told his news conference the coup was carried out because "the difficulties of the present time were leading to an impasse harmful to the national war effort," and because "relations with a friendly country were in danger."

He referred to the increasing Buddhist demonstrations against the Huong regime and the Buddhists' growing anti-American feeling, including the sacking of the U.S. Information Service library in Hue last Saturday.

Parent Bitter As Son Quits Air Academy

'He Didn't Cheat,' Midwestern School Teacher Declares

AIR FORCE ACADEMY, Colo. (AP) — "My boy didn't cheat — he just refused to be a stool pigeon."

That was the bitter reaction today of a parent of one of the more than 100 U.S. Air Force Academy cadets caught in the web of a classroom cheating scandal.

"I taught my boy since he was big enough to walk that he shouldn't snitch on the other kids," the parent, a Midwestern school teacher, added.

"He didn't do anything wrong. Another boy offered him an examination paper. He turned it down. This was a friend. My boy couldn't turn him in — and now he must pay for it."

Reactions from other parents were marked with similar sadness and bitterness.

Thirty more cadets resigned from the Academy Wednesday, making a total of 65 who quit rather than face a court-martial. Thirty of the cadets involved are reported to be members of the varsity football team.

Many of the resigning cadets were returning home today. Most of them found loving and sympathetic rather than angry and punitive parents, a telephone survey by The Associated Press revealed.

No names of the involved cadets have been released officially and won't be, the academy said. Some leaked out, however, from other sources.

"We sent our boy to the academy with honor and integrity — what have they done to him?" said a mother on the West Coast, choking back the tears.

The father of a football player living in the Middle West was shaken by news that his son was coming home under a cloud.

"I'm not mad at him — I'm proud of him," the father said. "I know he is a good boy. He has been under severe pressure. He has done nothing wrong. We will welcome him with open arms."

Amato Starts Regular Duty As Patrolman

Charles F. Amato has assumed his duties as a regular patrolman on the Wellsville police force after having been declared an official member of the department in a ruling handed down Tuesday by Common Pleas Court Judge Joel H. Sharp at Lisbon.

Amato won a declaratory judgment against the city to have himself placed on patrolman status. The court ruled he has been a regular patrolman since Sept. 2, 1963.

He will continue the same schedule he has been working for about two years. His turn is split, part daylight, part night.

No action is required from Mayor William F. Daugherty or Safety-Service Director Fred Baldasare for Amato to be officially placed on the force.

This brings the department back to the full strength of five patrolmen and two officers.

Amato will receive the regular patrolman's salary. In the past, he has been paid an hourly wage. The court also ruled his salary is to be retroactive to Sept. 2, 1963, which means he may receive the difference he would have earned under the salary schedule or he may have to pay back some money.

There has been no indication by the administration or Solicitor William Bush as to whether or not the decision will be appealed.

6th Aspirant Enters Race In 3rd Ward

Cooper Enters Bid For New Term In Solicitor's Post

A sixth candidate filed today with the County Election Board to seek nomination to the Third Ward Council seat in the May 4 primaries and Solicitor Joseph W. Cooper entered to ask nomination to his eighth term.

Wellsville also gained two new Democratic candidates. Walter E. Henthorne filed for the nomination for a Council - at - large seat and Raymond L. Sirianni entered as a candidate for the Fourth Ward seat.

East Liverpool's new Third Ward aspirant is James E. Lowe, 806 Lincoln Ave., the third to seek the Republican nomination. Employed six years at the Mackintosh - Hemphill Division of the E. W. Bliss Co. at Midland, he is an elder in the Trinity United Presbyterian Church.

Father of three, Lowe formerly was active in Boy Scout work. He served in the South Pacific in World War II with the 7th Infantry Division. Lowe sought the same post unsuccessfully in 1956.

Earlier GOP entrants for the same post were S. James Welch of St. John St., who held the seat in 1962-63, and Paul C. Shingler of Garfield St., an insurance agent.

Democratic candidates for the Third Ward seat are Donald E. Smith, the incumbent seeking a third term, Albert J. Garvey of Canton St., a policeman at the Midland Works of the Crucible Steel Co., and James Paul Grimes of W. 4th St., veteran employe of the Harker Pottery Co. Grimes' first name originally was reported incorrectly as John.

Cooper, a Democrat, now is serving his seventh term as solicitor. A son of the late Lee Cooper, he has practiced law in East Liverpool since 1941.

He is a member of the law firm of Kapp & Cooper. Cooper

Debris Sifted For 6 After Hotel Blaze

MANSFIELD, Ohio (AP) — Firemen faced the grim task today of sifting through charred debris searching for possible victims of a hotel fire.

The blaze, which raced through the transient Hotel DeSoto early Tuesday, killed at least one person. Six others were reported missing but it was not known whether their bodies were in the wreckage.

Authorities halted the search Wednesday night, stymied in their efforts by intense heat, tons of rubble and darkness.

One unidentified body, practically reduced to ashes, was discovered in the rubble.

Another hotel patron was injured critically but 15 to 20 others fled the burning three-story building to safety.

The hotel register was destroyed along with the entire structure itself. A hotel clerk supplied names of six persons thought to have been in the building when the fire broke out.

The 70-year-old hotel was used frequently by truck drivers and other transients for brief rest stops.

Snowstorm Seen Prelude To Zero Cold

A snowstorm moved into the Ohio Valley this morning as the prelude to a possible zero cold wave tonight.

Cold wave warnings were issued with a low of zero to 8 above due by Friday morning. Tomorrow will continue cold with flurries. Other sources said it would go below zero.

The snow reached about 2 inches at noon and the accumulation was expected to total 4 inches before the tumbling temperature turns it off.

Highway crews returned to district roads after less than a day's rest from salting following icing conditions Wednesday morning. Plowing may be necessary this afternoon if the build-up continues.

Chester Whitehouse, superintendent of State Highway Department's county facility at Leetonia, said all 16 truck crews

Senate Eyes Measure On Appalachia

WASHINGTON (AP) — The Senate takes up today the administration's bill to aid the depressed 11-state Appalachian region. Democratic leaders hope to have it on its way to the House by nightfall with ringing Senate approval.

Before the $1,092,000,000 measure, passed speedily by the Public Works Committee Wednesday, comes up for Senate debate the leaders will seek a vote on an administration bill to tighten control of water pollution. This, too, is expected to pass and be sent to the House.

While expressing pleasure that both bills are ready so early, Democratic Leader Mike Mansfield of Montana noted, however, that the last Senate also approved them. They foundered in the House where they were not put to a vote.

The water pollution bill would authorize larger federal grants to help cities build sewage treatment plants, make available $80 million for a research program on better methods of handling sewage and strengthen government enforcement of antipollution measures.

The Appalachia bill, under study since the first year of the Kennedy administration, is designed to given an economic boost to a $65,000-square-mile, 11-state area. The Appalachian state area. The Appalachian states are West Virginia, Alabama, Georgia, Kentucky, Maryland, North Carolina, South Carolina, Ohio, Pennsylvania, Tennessee and Virginia.

The bulk of the money in the pending bill would be spent for new highways, but there also would be funds for a wide variety of other programs designed to boost employment and income.

$2.75 Million For Schools

West Virginia Sales Tax Bill Waits House Action

CHARLESTON (AP) — A bill to provide more tax revenue for schools by tapping West Virginia shoppers for an extra $2.75 million a year is moving toward an expected House vote Monday.

Identical retail sales tax bills came out of the Senate and House Finance Committees Wednesday with recommendations for passage. However, the House bill is one day ahead in the legislative order of business and the first vote is expected to come there.

The House Education Committee reacted quickly to the Finance Committee decision. It recommended passage of the teacher salary increase bill backed by Gov. Smith and killed two rival salary measures.

House Education Chairman Harry R. Pauley, D-McDowell, said he thought the sales tax measure, together with some budget - trimming, would yield enough added revenue to assure financing of Smith's full recommendations for next year on teacher pay.

The Smith - supported pay bill would cost slightly over $10 million in added state funds next fiscal year and $30.5 million for its three - year program of salary advances. It would raise the pay of all of West Virginia's 17,000 public school teachers.

The salary measure still must be cleared by the Finance Committee.

The committee - approved tax bills would base the retail sales tax rate on a straight 3 per cent and push down the step - up points to yield still more revenue.

The tax would be one cent on sales from six through 35 cents; two cents from 36 through 70 cents, and three cents from 71 cents through $1. The tax would go up one cent for each 35 cents above $1.

Currently the tax is based on 2 per cent for the first dollar and 3 per cent above $1. However, the rate above $1 would revert to 2 per cent after June 30 without legislation.

The tax now is one cent from six through 50 cents, two cents from 51 cents through $1. Step-up points above $1 at 50-cent intervals.

Tax officials and legislators talk about a "2-per-cent tax" or a "3-per-cent tax," but these percentages refer to the rate on even dollar amounts. In between the effective rate is higher.

Under the present "2-per-cent tax" below $1, the tax on a 40-cent sale is one cent, an actual rate of 2.5 per cent. Under the proposed "3-per-cent" scale, a 40-cent sale would call for a tax of two cents, or 5 per cent.

Body Lying In State

Blind, Crippled War Vets Pay Homage To Churchill

LONDON (AP)—Blinded and crippled veterans of World War II came through cold and snow today to join the throng of Britons paying homage to Sir Winston Churchill, the man who led them to victory.

The blind, many with medals, clutched the shoulders of friends as they filed past the flag-draped coffin of Sir Winston, lying in state for the second day in historic Westminster Hall.

Many stood in silence before the high, black-draped catafalque.

Others were pushed past in wheelchairs. Others hobbled by on crutches or with walking sticks.

With snow falling and the temperature hovering around freezing, the line fluctuated in length.

But by midmorning an official said 87,773 people had moved beside the bier since the homage began 25 hours before.

Great though the number will be at the end of the three-day lying in state, police said it would not equal the 809,182 who filed past the bier of King George V in 1936. The king's body lay in state for five days.

Police expect more than a million persons to watch Churchill's funeral procession Saturday from Westminster Hall to St. Paul's Cathedral and on to the banks of the Thames at Tower of London pier. Cold and dry weather was the outlook for the funeral.

Westminster Hall was closed for cleaning at 6:10 a.m. When it reopened 50 minutes later, the queue stretched a quarter of a mile toward Lambeth Bridge across the Thames. The snow was heavier and beginning to settle. The temperature was 32 degrees, as it had been all night.

Fired Road Men Say They Report For County Jobs

Whether the discharged employes seek to claim Civil Service rights or union privileges or whether they plan to picket the garage has not been disclosed by the four.

Sixty - four other employes who served during the long tenure of Charles Snyder, Republican engineer, are not affected by yesterday's release order according to Ursu, Democrat who defeated Snyder in November's election.

Mail Box May Soon Be Slimmed Down

NEW YORK (AP) — One of the nation's best - known landmarks —the corner mail box — may soon appear in a slimmed down version. According to "Steel Facts," published by American Iron and Steel Institute, two new designs are being tested for possible adoption by the postal department. One, made of gleaming stainless steel, weighs only 83 pounds (half as much as the traditional box), needs no painting and can be shipped knocked down.

The second prototype is a pyramidal - topped collection box made of sheet steel with mail slots on three slides.

The most recent innovation prior to these test models was the steel "snorkel" box placed at curbside for mail drop by motorists.

2 Men Jailed In Auto Theft

Two transients will be returned to East Liverpool for prosecution on charges they stole a brand new Chevrolet Impala hardtop off a dealer's lot here and wrecked it in a Cleveland suburb after abandoning their old auto on the Horn Switch, Police Chief A. J. Radeschi said today.

David C. Crockett of Ghent and James L. Sturgill of Parma were to be returned today from the Cleveland suburb of Brooklyn by Capt. Robert Pyle and Patrolman Charles A. Winters.

East Liverpool police were advised Wednesday at 2:10 p. m. the two had admitted theft of the auto, which was traced through its serial number to Mike Turk, Inc., of E. 6th and Walnut Sts., the chief said.

The auto agency did not know of the car's disappearance until advised by the local department it had been wrecked at Brooklyn, the chief said. The car was reported not in condition to be driven, he added.

According to their statements to Brooklyn police, the two were passing through East Liverpool Monday night or early Tuesday when they abandoned their old Nash Metropolitan on the Horn Switch property and then stole the car off Turk's lot, the chief said.

The chief said the men will be arraigned in Municipal Court on auto theft charges.

Woman Hurt In Home Fall

A North Side woman hurt in a fall at home was treated Wednesday night at City Hospital where three other area residents were treated yesterday after separate mishaps.

Mrs. Bessie Smith, 910 McKinnon Ave., received a laceration of the scalp when she slipped and fell.

Larry Allen Wolfe, 4, son of Eugene Wolfe, 106 Drury Ln., suffered a laceration of the left index finger when bitten by a dog while playing.

Albert Buchheit, 16, of 241 W. Church Ln. received a cut of the right little finger when caught in a car door.

Robert Tolson, 14, son of Robert Tolson, 914 May St., a Review carrier, suffered a fractured right foot when he slipped on steps while collecting from a subscriber.

Right Eye Will Be Saved

Girl Loses Left Eye Damaged By Kidnaper

CLEVELAND (AP)—Laying in her hospital bed, Donna Adkins, 7, looked up at her parents and smiled. Doctors had removed her left eye in a two-hour operation—the eye damaged when her kidnaper fired a blank cartridge from a tear gas pistol at close range.

The girl's right eye will be saved.

Doctors at Southwest Community Hospital said Wednesday they operated to prevent possible damage to the good eye.

"The doctor told us she came through the operation real good," said her father, Clifford Adkins. "He said she's going to be all right. And after she recovers, she'll be fitted with a glass eye."

William Rehard, 22, of suburban South Euclid, has confessed he abducted and held the girl overnight, police said. Rehard is charged with child stealing and as a parole violator. He is being held in jail under $10,000 bond.

Police say he admitted forcing the girl into his car near her home on the west side last Thursday and kept her locked overnight in a car. He abandoned the girl the next day on the Ohio Turnpike south of Cleveland after first firing blank cartridges into her eyes, police said.

While doctors operated on the girl, her parents sat quietly in a waiting room. From time to time they went into a hospital chapel and prayed.

"I figured all along that this would have to be done," Adkins said. "The doctors had given me an inkling a couple of days ago." His wife was crying.

Donna has remained cheerful through her ordeal. She has a teddy bear on her hospital bed and Adkins said his home is being deluged with get - well cards, flowers, money and gifts.

"You never saw so many dolls and teddy bears," he said.

Doctors don't know how long Donna must remain in the hospital. "When she does get home we'll treat her the same as we always have," Adkins said. "The one thing we won't do is pity her."

Then he spoke again of the ordeal his daughter had gone through. "I keep feeling like crying," he said. "When I think of her lying out there at the side of the turnpike. . ."

Case Against Car Firm Dismissed

A charge against an East Liverpool auto firm, accusing it of selling new cars without a franchise, was dismissed without prejudice Wednesday by the Automobile Dealers' and Salesmen's Licensing Board in Columbus.

The charge was against Brown's Auto Sales, 948 Pennsylvania Ave., the board said, identifying Curtis F. Brown as the owner.

Lou Wilsch, registrar of motor vehicles and board secretary, said the firm did not have a factory franchise nor was it licensed as a new car dealer.

Such charges generally orginate as a complaint from the factory or another dealer and are investigated by the Bureau of Motor Vehicles, Wilsch said.

If the evidence indicates action, the case is turned over to the licensing board, he explained.

Ten other dealers and six salesmen also appeared before the board this week.

The Trend Has Been Started

Richard M. Nixon is said to be the source of a suggestion that Barry M. Goldwater pick out a state with a senatorship coming up for grabs in 1967 and make a grab for it.

If former Sen. Goldwater bides his time for the next Republican opportunity in Arizona, he will have six years to wait. But in 1967, no less than 13 Republican seats will be open for voting decisions—in Colorado, Delaware, New Jersey, Kentucky, Nebraska, Idaho, Iowa, S. Dakota, Kansas, Massachusetts, Wyoming, Maine and Texas.

The trend has been started, thanks to Robert Kennedy's successful bid for a senatorship in New York last November. It is true that wherever a Goldwater claim might be staked out would jeopardize an old settler's prior claim, but it did not bother Bobby Kennedy to cut the ground from under Kenneth B. Keating and it might not bother Barry Goldwater.

A politician without a political home base to operate from is a carpenter without a hammer. He cannot build a political structure by pounding with his fist.

This would seem to be former vice president Nixon's reasoning.

He is pounding with his fist, himself, though getting as much attention as if he had a hammer—helping to make the Burch-Bliss exchange in Chicago, proposing a showdown with Red China in Viet Nam, advising Barry Goldwater to get himself a hammer.

On second thought, he now may have his own hammer—New York's 45 electoral votes.

Full Speed Ahead

Another liquor charge has been dismissed after a hearing in Hancock County.

Squire John Herron considered the action necessary after weighing evidence in the case against Art Lewis, cited earlier at Terrace Lanes on Route 30.

While such legal setbacks must be frustrating, law enforcement officers should not allow themselves to become discouraged to the point of abandoning any future necessary raids.

Paraphrasing Admiral Farragut's long-remembered words, Sheriff Rodak's battlecry still should be: "Damn the legalities, full speed ahead!" in his cleanup.

Just One More Happening

When year-end recapitulations were being toted up a few weeks ago, some of the toters included America's indifference to violence.

They mentioned the incident of the New York woman murdered by a knife-wielder while her neighbors ignored her cries for help, some of them in sight of the crime.

They mentioned other incidents of seeming indifference to violence and distress that had come to attention during the year.

And they mentioned the belief that all these instances pointed to the same conclusion: People no longer want to get involved in other people's trouble.

The conclusion didn't satisfy. It didn't ring true.

What seemed more likely was that many people are losing their ability to become involved. This is confirmed by a Johns Hopkins Medical School psychiatrist, Dr. W. Horsley Gantt, who says crowded living causes human beings to lose their ability to react to stress.

Their ability to react has been exhausted by too many provocations.

They finally reach the point where one more incident means nothing in particular. They are numb, paralyzed, apathetic, limp with mental fatigue. Dr. Gantt calls it a "non-reactive state."

At least it's a kinder explanation than to say people don't care. They can't care. They do not choose between being callous and being concerned. They have been made callous by circumstances, not by choice, says Dr. Gantt.

Warm, With Caution

With cold weather back, another call for extreme care in the use of all heating equipment is in order.

In the course of frantic efforts to keep warm, caution too often is forgotten and heating facilities are allowed to become overtaxed to the point of danger.

Keep warm, but keep your home while doing it!

Letter From Max

By Martin Miller

Dear Truman Twill:

Bet you are glad you live in the Temperate Zone now. We are having our second or third January thaw and no doubt you are like the rest of us — wondering what next.

That is the beauty of our climate, never a dull moment. The temperature has been up to 50 degrees and the wind up to 50 miles an hour in gusts, as the professionals say. Typical March conditions.

None of that tepid weather they get in the tropics and subtropics where the temperature varies only from the 70s to the 100s, with an occasional deluge of rain.

Householders hereabouts are even watching their hyacinth, daffodil, tulip, crocus, narcissus and other bulb plantings to see if they are forcing their sturdy little probes up through the ground to test the season.

It sure must be monotonous to live someplace where you never have to worry about the weather.

FRIENDS of ours accustomed to going full tilt all the time at his job up north once was assigned to the southern U.S. for a spell and came back chastened, saying he had learned why people in those climes seemed to move more slowly — it was self-preservation because of the overwhelming heat.

Imagine what a bore it would be to know you could go picnicking, swimming, golfing or playing tennis any day you wanted to the year around!

In our region people have to ration such pleasures and often as not are double-crossed by the elements. It keeps them on their toes and they cherish every break they get in the weather.

Another northerner we knew was transplanted to a so-called sunny state area *after months of looking at nothing but blue sky and yellow-sunburned vegetation.*

Looks like we're stuck here, Twill and might as well make the best of it.

TO CHANGE the subject, I'd like to ask how you stand on mystery stories, which are almost as mysterious as weather.

I usually read two or three murder mysteries a year and judge their quality by the length of time it takes me to read them — from one to four days.

Latest one I read was copyrighted in 1925 and woe unto him who tries to read all such stories written.

Strange that anyone who professes a liking for mystery stories immediately feels on the defensive.

An elderly lady who once had taught Latin and Greek in college was the most avid fan of such stories I ever knew. She always explained that President Coolidge liked them. She finally had to make a list of the ones she had read and consulted it whenever she got a new story at the library because she had caught herself rereading the same ones.

President Kennedy was said to read them with pleasure.

What does President Johnson read for diversion?

In conclusion, let me say I am as mystified as you are as to why you would get an invitation to apply for the job of economist for the city of Philadelphia. I didn't get any.

Maybe Philadelphia just wanted the publicity. They could send us each a magnum of brotherly love for payola if they want to.

Faithfully yours,
MAX

Purely Personal

By Truman Twill

I wonder how many other people never even try to pronounce the names of United Nations representatives. I even choke up on the relatively easy name of Zlex Quaison-Sackey, president of the General Assembly.

That was embarrassing when Britain's foreign secretary got whomped in his own bailiwick, but it makes one wonder how many U. S. Cabinet officials could pass a vote test in their home districts.

New York magazine has done a biography in depth on a Princeton basketball player, Bill Bradley, who is so outstanding his classmates, coaches, teachers and teammates agree he will be the governor of his state and possibly president of the United States.

I am glad to have lived long enough to see a Southerner named Lyndon B. Johnson show the grace as president of the United States to dance twice with Negro women at White House parties during inaugural celebrations — once with chanteuse Sarah Vaughn, once with Mrs. Robert Taylor, wife of a sub-cabinet official.

I want the education lobbyists to tell me how much each state spends per pupil on the highest third, the middle third and the bottom third of its students. I am mistrustful of figures which make it seem as if education was being starved with 500,000 pupils getting an average of, say, $500 apiece and 500 getting $100, giving the whole state an average of only $300.

I was disappointed when John Pont left Yale football coaching for the University of Indiana. I thought Yale deserved Pont and vice versa. I thought he took the job in the first place because he liked the Ivy League principle of playing football as a game between amateur teams. Oh well . . .

I don't want to scare the TV networks, but in connection with some reading going on in our house lately the gawk-box has stayed dark for many nights in a row. It can happen.

The New York World Fair is such a gigantic paradox it staggers me. The show drew more than 27 million customers its first year and was such a success it must draw 40 million this coming summer just to avoid bankruptcy.

Greetings From The President

Movie World Hits Back At Reds

By Victor Riesel

There is no evidence that success will spoil Rock Hudson. But there is considerable proof that it will anger the Soviet's global propaganda apparatus.

Victor Riesel

The stalwart Mr. Hudson is being teamed with the beauteous Claudia Cardinale, the newest of Italy's contributions to a long line of cinematic ladies whose talents are as obvious as they are plentiful.

What has angered the Communists in general and the pro-Soviet Italian press in particular is the casting of the Hudson-Cardinale due in a film thriller which has the curvaceous heroine saving the hero from Communist kidnappers.

The exotic Miss Cardinale has been accused by Rome's left wing press of thus participating in a "reactionary maneuver." This is no inconsequential matter for Miss Cardinale. It's the Communist fashion thus to warn performers there will be reprisals in the French and Italian film industries.

THIS CRITICISM of Miss Cardinale for contracting to make a picture called "Blindfold" for an American producer is characteristic of the Soviet's constant offensive in the "image" industry.

There is always the implied threat of being blacklisted by the Communists who have considerable influence in "movie" and theatrical unions on a broad front from Paris to Calcutta.

In the past the artists have had a hard time defending themselves and it has taken rare courage to lend their talents to anti-Communist causes, plays or films.

But a new force is moving into the world picture. Led by American labor chiefs in the movie, stage, musical, and broadcasting arts, some 40 major unions from many nations will hold a world conference in Brussels next March 8. For the first time there will be a global federation of anti-Communist entertainment unions which will be able to fight back on all fronts and on all continents.

TYPICAL of what has aroused the unions of free lands is a recent meeting of the left-wing International Actors' Federation. They held their fifth congress in Mexico City.

Two of the delegates were Fidel Castro's "cultural" aides, Pedro Alvarez and Juan Noya. When they returned to Havana some weeks ago, they announced that the Congress marked "an important step towards the unity of all actors."

Statements adopted by the Congress included a resolution to "fight against U.S. television series filmed in the United States, which, besides displacing actors, are intended to campaign against the right of peoples to free self-determination."

This was released across the world as a signal to Communist forces everywhere to launch a boycott and blacklist of American films.

IN ADDITION to the propaganda value of such a move, the Communist cultural "phalanx" can hurt America's $2 billion film industry and cost the movie colony a considerable number of jobs.

There is no doubt of the importance the Communists place on their aggressive cultural apparatus. Experts who have recently returned from Asia report strong Sino-Soviet competition for influence in the film industry of India.

Few in the U.S. are aware that India is the world's biggest movie producer. It turns out some 300 pictures a year. These films have great impact on the Asian mind. Now for the first time a new force will compete for the support of India's film unions, writers, producers and studio craftsmen as well as stars.

These Indians have been invited to the March 8 world conference and indications are they will come. This has so angered the Soviets that the U.S.S.R. trade union publication "Trud" has characterized the anti-Communist sessions, as "unsavory and shameful."

THE RUSSIANS have been particularly vindictive toward the organizer of the conference, Irving Brown, American representative of the International Unions. The Communists refer to Brown as America's "Ultra No. 1."

Mr. Brown, long a skillful opponent of the Communists on many fronts across three continents, was in Hollywood early in January. There he addressed the board of the Screen Actors Guild (SAG) which pledged to send its president, movie star Dana Andrews, and its executive secretary, John Dales, to the parley.

The SAG will be one of 10 American unions there — along with the musicians, the stage hands, the electrical workers, and the TV and radio people.

No doubt, the world struggle for a free culture will now have a robust champion to fight back against those who have pushed artists around for so long. And what could be more pleasant than rallying to Miss Cardinale, who apparently is as courageous as she is curvaceous.

Today is Thursday, Jan. 28, the 28th day of 1965. There are 337 days left in the year.

Today's highlight in history:

On this date in 1878, the first commercial telephone switchboard was installed at New Haven, Conn.

On this date

In 1547, King Henry VII of England died.

In 1871, Paris surrendered to the Germans in the Franco-Prussian War.

In 1922, the roof of the Knickerbocker Theater in Washington collapsed under the weight of snow; 98 persons were killed.

In 1936, the body of King George V was carried in state from Westminster Hall to Windsor and there buried in St. George's Chapel.

Misleading Figures

By David Lawrence

Proper Picture Of Budget Suggested

How to keep the budget under $100 billion "without really trying" — this is the talk of the Capital. Out of the 512 printed pages containing President Johnson's budget and supplementary tables and figures, there is one chart which tells the whole story in graphic form. It reveals how any president can keep the budget under $100 billion.

David Lawrence

There are two white bands across the chart. One says that the new authorizations the President has asked Congress to give him amount to $106.4 billion. The other shows unspent authorizations enacted in prior years as totalling $96.7 billion.

By simply dipping into these two big funds and using some funds from each in a given year, a president can come up with $100 billion of expenditures or some other arbitrary figure in his estimated budget for the following year and still remain at a level of imaginary frugality.

The same chart reveals that out of the $106.4 billion of new authority asked by the President, only $72 billion will be spent in fiscal year 1966, which begins on July 1.

Out of the unspent authorization of $96.7 billion in prior years, the chart discloses that the President announced he will use only $27.6 billion in 1966.

BY ADDING this $27.6 billion and the $72 billion, a budget of a little less than $100 billion is thus presented for the fiscal year 1966.

Where does this leave the two unexpended yet still authorized totals? Out of the new authority recommended for fiscal year 1966, the treasury would have left $34.4 billion, and out of the unspent authorization of previous year, it would have $67.2 billion.

This means that next January the President can again dip into unexpended but authorized funds totalling $101.6 billion as a reservoir available to make another budget below $100 billion.

This is the main reason why it is misleading for so much emphasis to be placed on the fact that the "administrative budget" for the fiscal year 1966 will be less than $100 billion.

It's to this that most prominence has been given, though there is beginning to be an awakening of public opinion on the subject, as shown in editorials from three leading newspapers which supported Mr. Johnson in the last election. The New York Herald Tribune, for example says:

"Mr. Johnson's publicized preoccupation with keeping the administrative budget under $100 billion should not be permitted to obscure the fact that his budget, for fiscal 1966, at $99.7 billion, is the highest in the nation's history. Nor should emphasis on the administrative budget obscure the payments that will be made into and from the assorted trust funds — and which will bring total federal spending for fiscal '66 to $127.4 billion."

THE NEW YORK Times says:

"The cash budget, which consolidates the activities of the government's trust funds, estimates total payments for fiscal 1966 at over $127 billion and receipts at $123 billion. By focusing attention on the $99.7 billion spending figure in the administrative budget, the President is not merely giving less than a full picture of the government's role. He also is limiting the effort to forge the budget into a truly flexible instrument for influencing the economy."

The Washington Post says:

"Unfortunately most of the attention will be captured by the administrative budget, a bookkeeping concept that dates back to 1921 . . . its principal shortcoming is that it excludes entirely the operations of the growing trust funds. The most important of which are those established for the operation of the Social Security system. . . .

"Much confusion can be eliminated by scrapping the administrative budget. The consolidated cash budget is a far more useful tool for purposes of both administrative control and economic analysis."

CAREFUL EXAMINATION of the 512-page book on the budget issued by the treasury shows that the word "increase" in outlays appears more than 300 times.

The Republican party, which theoretically is the opposition party, has never made a concerted attack on the unsound financing systems used by the government as well as the administration's methods of minimizing deficits. Vice President Humphrey, for example, in a speech this week in Arizona at a national conference on poverty, scoffed at the critics of "deficit spending," and declared:

"We should pay more attention to the deficits in education, poverty, discrimination and health rather than deficits in dollars."

The difficulty foreseen by some of the critics is that if public confidence in the financial operations of the government is weakened, all the dollars in the budgets of future years might not be adequate to meet the rising costs and inflated prices of services needed for the effective functioning of the programs designed to promote education and health and to reduce poverty.

Era Of Technicians

By James Marlow

WASHINGTON

If the world seems unusually quiet these days, even dull, one reason is that President John F. Kennedy and Premier Khrushchev were better actors, travelers and talkers than their successors.

With them gone, this has become the era of the technicians in Washington and Moscow. But those two capitals aren't the only places where the sparkle has diminished.

The pulse of the world has slowed down because there is not one truly dramatic figure left, or in sight, to make it skip a beat except for French President Charles de Gaulle, and he's old and he's been playing it cool.

Yet this century has had its share of vivid men, particularly these: Three presidents, Wilson and the two Roosevelts, the Kaiser, Sir Winston Churchill, Lenin, Stalin, Trotsky, Hitler, Mussolini, Gandhi, Nehru.

President Johnson is at his best operating behind the scenes. There's hardly a peep out of the men who took Khrushchev's place.

Kennedy kept American eyes and expectations fixed on the White House if only because his televised news conferences were always a good show: His wit, his gestures, his facial expressions, his sharp intelligence. And there was no end of excitement, even in his first year with his big boner in backing the disastrous Cuban invasion, his trip to Europe, his summit meeting with Khrushchev, his stand on the Berlin wall.

Johnson talks a lot and even performs a bit, like pulling the Beagle's ears or grabbing tourists' hands, but he is not at his best in speaking or writing. He reportedly bristles when anyone suggests he's corny.

He holds news conferences everywhere — in his office, on the White House lawn, at his ranch, and Wednesday in his bedroom — but almost all are out of public view because he deliberately avoids news sessions on television.

Johnson has stayed close to home and out of dramatic situations. His tendency has been to soft-pedal, not dramatize, unpleasant events like the riots in Panama last year or the deteriorating war in Viet Nam.

In the end he may prove far superior to Kennedy in accomplishments but it seems sure now he's not in the same class with Kennedy as an actor.

Just a little over 100 days ago Khrushchev was put in limbo by his Kremlin colleagues. His place was taken by a two-man leadership: Premier Kosygin and Soviet Communist Party Chief Leonid Brezhnev.

They've been practically speechless ever since. The party explained one reason they moved in was because Khrushchev had become too much of a one-man show. They called it a leadership cult.

Kosygin and Brezhnev—compared with the bouncy, flamboyant, sometimes giddy, merry, somber, cheerful, threatening, coaxing, cajoling, beguiling and always forceful Khrushchev — are as undramatic as a grocer taking inventory.

Meeting Next Thursday

State Aide Will Discuss County Airport Proposal

The possible establishment of a new Columbiana County airport will be discussed by Norman J. Crabtree, chief of the Ohio Division of Aviation, at a meeting next Thursday at Lisbon.

State Rep. Clarence Wetzel of Lisbon has arranged the meeting with various government and business representatives.

Rep. Wetzel said Crabtree with Floyd Lower of Lisbon, president of the County Regional Planning Commission, is scheduled to tour various airport sites throughout the county in the afternoon.

Funds for the airport would be made available from the proposed Ohio bond issue which is up for a vote in the May primary election, Rep. Wetzel said.

Selected to attend the meeting at 8 p. m. at the Lisbon Village Hall are representatives of the Trustees and Clerks Association, county commissioners, County Engineer John Ursu, mayors of the county, presidents and secretaries of Chambers of Commerce and the County Planning Commission.

Rep. Wetzel said this group is expected to meet later to discuss selection of a site for the proposed airport.

He said he was requested by Gov. James Rhodes to arrange the meeting.

They Don't Know Themselves

Baffling Viet Question: What's Buddhists' Aim?

By The Associated Press

In the bewilderment generated by the Buddhists and the generals in South Viet Nam, the most baffling question is: What do the Buddhists want? The Buddhists themselves do not seem to know.

The new military coup in Saigon hardly can be interpreted as a step toward the stability the United States has sought in its efforts to keep South Viet Nam out of Communist hands.

Lt. Gen. Nguyen Khanh, the durable young string puller, simply reasserted military rule. In effect, it was there all the time in spite of a facade of civilian government under the now deposed premier, Tran Van Huong.

Buddhists cheered Khanh's new coup, but it is difficult to see what they hope to gain from it. They demonstrated just as violently last summer against Khanh as they did against Huong.

Some U.S. policy makers profess to see something encouraging in the latest development: that perhaps it will lead to some sort of viable civil rule. But Americans periodically expressed encouragement in the past, only to have their hopes smashed by new upheavals. There have been seven major ones since November 1963 when President Ngo Dinh Diem was overthrown.

Indeed, there can be new frustration for Americans. The upshot may be that Washington will have to choose between Ambassador Maxwell D. Taylor and Gen. Khanh, who evidently cannot abide the U.S. envoy. Since the Buddhists enthusiastically share Khanh's distaste for Taylor, his usefulness is in doubt.

There can be no solution to Saigon's violent instability until somebody finds out what the Buddhists want. They have been the key.

But do they know what they want? First, it was civilian rule. They got a form of it and turned against it. Then it was representative government. But they cheered when the military took over again this week.

Two years ago Buddhist unrest had religious overtones. They pictured themselves as oppressed by Diem, a Catholic. Since then, religion and politics have come together.

Evidently some influential Buddhist leaders have the idea that in some way they will be able to deal with the Communist threat because they are Asians and the Americans are not. The Communists have made the most of this notion.

The confusion has been a windfall to the Viet Cong. But now there probably are elements among the Buddhists hell-bent to keep the boat rocking. The Buddhist rank and file must by now be heavily infiltrated by Viet Cong agents.

Michael Baker's Firm Buys Hotel

BEAVER — Sale of the Gen. Brodhead Hotel, Beaver Falls to a company headed by Michael Baker Jr., president of the Rochester consulting engineering firm bearing his name, has been announced.

The 100 - room hotel was bought by the Beaver Valley Engineering Supplies Co. of Rochester, a corporation wholly owned by Baker and his wife, Myrtle E. Baker. The transaction placed both the Brodhead and another major Beaver County hotel, the Penn-Baker in Rochester, under the ownership of Mr. and Mrs. Baker.

"The new owner will take over operation of the hotel Monday and a $100,000 improvement program will be started immediately at the Broadhead, Baker announced. Financing in connection with the acquisition of the Brodhead was arranged by the Western Pennsylvania National Bank.

Johnson

(Continued from Page 1)

Gould, a New York throat specialist.

Johnson greeted the newsmen by saying:

"I have just been examined and gone over by Dr. Burkley and the other doctors here and it is their judgment that while I have made a substantial recovery from the virus infection, they would consider it inadvisable for me to undertake a long trip where I would be exposed, as I would be on the London trip, at this time." He said he was "feeling fairly good" but still coughed, had a runny nose and some throat irritation.

"I don't have the bouncy feeling that I usually have," he reported, and added that the doctors wanted him to "take it easy for a few days on the theory that I am susceptible to a reinfection."

One reporter asked if there were any special reason why he had chosen Rusk rather than Vice President Hubert H. Humphrey to head the American delegation at the funeral.

"No," he replied.

Some White House source suggested Rusk was chosen because foreign ministers have been selected by most other countries to head their delegations in cases where the head of government is not making a personal appearance.

City Man Bound Over In Entry At Wellsville

Albert E. Donahue, 50, who lists his address as Horn Switch, East Liverpool, was bound over to the Grand Jury under $1,000 bond for burglary at a hearing Wednesday before Columbiana County Judge James L. MacDonald at Lisbon.

Donahue waived a preliminary hearing on the charges filed by Wellsville police. He is accused of the burglary of the home of Pete Gardner, 431 Commerce St., Wellsville, Jan. 19.

He allegedly stole a transistor radio, iron and other household items.

He is confined to Columbiana County Jail at Lisbon in lieu of bond. He is expected to appear before the Grand Jury that was recalled for today.

Idea Revived After Girl Kidnaping

Institution Seen Needed For Ohio Sex Criminals

COLUMBUS, Ohio (AP)—Support is growing for a state institution for sex criminals to help solve what may be Ohio's most difficult prison problem.

The idea was revived following the kidnaping and maiming of a 7-year-old Cleveland girl by a paroled man who only a few months ago completed less than a year in prison for a similar offense.

Corrections Commissioner Maury C. Koblentz, whose division will take over the entire parole program March 18, said he may recommend such an institution be built.

The proposal also got the blessing of John W. Shoemaker, acting superintendent of the Bureau of Probation and Parole who cited the lack of psychiatric care as a major problem.

Other moves are under way around the state to look into the problem from a legal viewpoint, including a review of the Ascherman Act which is the only one of 20 state sex crime laws that requires professional interpretation of what motivated a crime.

In Canton, Stark County Common Pleas Judge John Rossetti proposed that the General Assembly pass new laws to cut down on sex crimes.

Rossetti campaigned successfully two year ago for a law requiring statewide registration of sex offenders but says "that's only one phase of what needs to be done."

He favors a state hospital and improved treatment for sex deviates, and would toughen penalties for certain types of sex crimes.

Shoemaker was asked about the parole of William H. Rehard, the 22-year-old defendant in the current Cleveland case. He said Rehard had served the minimum time to be eligible for parole and that other factors had to be considered.

"He did not harm the 6-year-old in the first incident. In fact, there was no sex angle involved," Shoemaker said.

He also pointed out that Rehard was not sentenced under the Ascherman Act and therefore no psychiatric examination or treatment was required.

Koblentz' idea for a state institution is for a facility for all mentally deficient prisoners to include sex offenders.

He said such a facility would lighten the load at Lima State Hospital "which stays jammed with 1,300 to 1,400 patients."

Lima is the only state institution which examines and treats prisoners with suspected mental problems.

"We have found the prisons are no place for these mentally disturbed people, and the problem goes a lot deeper than sex offenders," Koblentz added.

Weirton Burglar Given Probation

NEW CUMBERLAND — A 19-year-old Weirton resident, indicted for a series of breaking and enterings last November in Weirton, was placed on 10 years' probation Wednesday by Circuit Judge Ralph Pryor.

James Dillon was sentenced to 1-10 years in the Moundsville Penitentiary on each of two indictments, but Judge Pryor suspended the prison terms and set five years' probation on each count.

An alleged accomplice, James L. Stern, 20, also of Weirton, was placed on probation last week.

Also given probation last week was William C. Ware, 31, of New Cumberland, who was named in a misdemeanor indictment charging negligent homicide.

Ware was sentenced to a year in the Hancock County Jail, but the term was suspended and he was placed on probation for two years.

The indictment stemmed from fatal injuries suffered by Edward C. Clark of New Cumberland when he was struck by Ware's auto while crossing the street in New Cumberland.

Receipts Hit $1,650; 'Dimes' Drive Pushed

About $1,650 was turned by workers in the Mothers March of Dimes appeal held Wednesday in East Liverpool and outlying areas, Mrs. Dorothy Crooks, Columbiana County chairman, announced.

Some of the workers will continue the solicitation today, Friday and possibly Saturday, Mrs. Crooks said, and the final report will probably be announced Tuesday morning.

Thieves Hit Club At Lawrenceville

West Virginia State Police investigated the theft of $326 in cash Wednesday from the Lawrenceville Firemen's Club.

Troopers said burglars obtained the cash from a juke box, cigarette machine and a large wall cabinet which apparently by mistake had been left unlocked.

The officers said no merchandise apparently was touched.

The thieves broke a window to gain entrance sometime between midnight and 1:55 p. m. yesterday, officers said.

Ashland Oil Cites Ohio Production

The Ashland Oil & Refining Co. at Ashland, Ky., reported to stockholders Wednesday that for the December 1964 quarter its crude oil production from the prolific Morrow County (Ohio) field accounted for 6 per cent of the company's record earnings of $7,209,376.

This is about the same percentage contribution to earnings as for the past fiscal year, although during this three-month period Ashland's net oil production from the field declined 800 barrels a day to an average of 5,694.

Quarterly earnings equalled 93 cents a share on common stock, and were 20 per cent higher than earnings in the December quarter of the previous year, it was announced by Rexford S. Blazer, board chairman, and Orin E. Atkins, president.

Ashland Oil's record net sales for the period were $108,490,629, or 8 per cent higher than last year's corresponding quarter.

Shrinkage of refinery profits due to continuing low prices received from sales of gasoline has been offset by earnings from other manufacturing operations, the officers said. Carbon black and synthetic rubber sales by the United Carbon Co. Division have continued at a high level and are contributing importantly to earnings, they explained.

JEFFERSON, Ohio (AP) — Free for 26 years, William C. Mallory, 50, of Firebrick, Ky., was turned over to state authorities here Wednesday after a routine fingerprint check revealed he had been wanted since 1939 for violating his parole from the Ohio State Reformatory at Mansfield.

Mallory, married and the father of five children, was serving a 60-day sentence in Ashtabula County jail for trespassing when a routine check through the FBI in Washington revealed his police record. He described himself as an itinerant farm worker. He is separated from his wife, who is living in Portsmouth, Ohio.

The only American car that's anti antifreeze and pro-snow

(The difference is its air-cooled rear engine)

'65 Corvair by Chevrolet

Corvair's engine won't freeze. Or boil over.

It can't.

It's air-cooled. It has no radiator. It never needs water or antifreeze.

The weight of Corvair's engine over its rear wheels gives it built-in traction without snow tires.

The engine weight off its front wheels gives it built-in handling ease without power steering.

And Corvair is the only American car, besides Corvette, that has 4-wheel independent suspension.

The Corvair Corsa is the only American car you can order with a six-cylinder engine as powerful as a lot of eights—a 180-hp.

In fact, it's the only car in the world available with a factory-installed supercharged engine.

And the '65 Corvair is different from any other Corvair ever built.

This year it's completely restyled. With soft vinyls. Thick carpeting. A roomier interior. And a touch of the continent in its design.

We're proud we can show you a car that stands out from the rest.

It makes us stand out a little, too.

Midland View Girl Weds In Double-Ring Ceremony

Miss Renita Kadilak, daughter of Mrs. Elizabeth Kadilak of Midland View, and the late Stephen Kadilak, became the bride of Richard LaBarbera, son of Mr. and Mrs. Thomas LaBarbera of Brooklyn, N.Y., on Jan. 16 in the Presentation Catholic Church in Midland.

Fr. John Sabovik read the double-ring rites preceeding the Nuptial High Mass. Mrs. Charles Kennedy was organist.

Given in marriage by her uncle, Joseph Kadilak, of Smiths Ferry, the bride wore a floor-length gown of chiffon over crepe, featuring an Empire waist, high neckline and long, pointed sleeves. The sheath skirt ended in a chapel train with lace trimmed bottom.

Her shoulder-length veil was held by a Juliet crown adorned with rhinestones.

She carried her late father's prayerbook with white lace and calla lilies.

The bride's sister, Miss Victoria Kadilak, of Arlington, Va., was maid of honor. Her gown featured an ivory skirt and moss green velvet bodice. Her nose veil was held by a matching velvet bow. She carried a bouquet of white carnations with moss green baby breath.

Miss Patricia Krovisky of Smiths Ferry and Miss Kathy Kelly of Arlington were bridesmaids. Their gowns were styled and colored identical to that of the maid of honor.

Thomas LaBarbera, brother of the bridegroom, was best man. His cousins, Vincent and Joseph Claps of Brooklyn, were ushers.

Mrs. Kadilak chose a dress of moss green lace with matching accessories. She wore a white orchid corsage. The bridegroom's mother wore a pink dress with matching accessories and a white orchid corsage.

A reception for 130 was held in the late afternoon at Deramo's Restaurant in Midland. The three-tiered wedding cake and flower arrangements centered the bridal table.

The bride chose a gray tweed suit with black accessories for traveling. Following a honeymoon in Vermont, the couple will be at home in a newly-furnished apartment in Brooklyn.

The bride is a graduate of Western Beaver High School and was employed by the Department of the Interior in Washington. Her husband was graduated from Brooklyn High School and the City College of New York. He is employed by the Catholic Charities Hospital in Brooklyn.

Out-of-town guests were from Pittsburgh, New York, Arlington, McKeesport, McDonald and Newell.

Hints *from* Heloise

— By Heloise Cruse —

Dear Heloise: We have instant this and instant that — so try these instant cushions.

Save (in a safe place) those soft plastic dry-cleaning covers. Use them to stuff some extra throw cushions

Most every housewife who sews has scraps of nice materials, large enough to stitch up throw cushions.

These plastic bags make the nicest, lightest, softest stuffing, and the cushions fluff up instantly with a slight shake.

Try out this idea — you'll be glad you did!

MRS. BERTIE M. HAYNIE.

DEAR HELOISE: Being a bowling enthusiast has sometimes caused me to have an achy muscle or two in some hard-to-reach back areas.

Rubbing in a heated medication is so easy since I discovered the back of my hand for the good rub-in. And the salve isn't all wasted between my fingers.

Either hand used, covers a wide reachable area . . . s-o-o-o soothing.

MRS. M. SPOTSWOOD.

-:-

We looked pretty silly trying this hint but we all agree that it is wonderful! It is amazing how much less strain there is in your arms and how much further up your back you can reach by using the back of your hands to do the massaging.

Naturally, you still have to use the front of your hands to rub the upper part of your shoulder blades but the back of the hand is super for the rest of your back.

HELOISE.

LETTER OF LAUGHTER

DEAR HELOISE: Now that I have my floors all waxed, I will put my 8 - month - old crawler down in his terrycloth pajamas to do the buffing!

JOAN L.

-:-

DEAR HELOISE: I stack two paper plates and cover them with aluminum foil to make a no - return plate when I send a cake, salad, etc., to someone.

S.C.

DEAR HELOISE: To keep a screw in plaster walls, pound a small nail gently into the plaster and then remove it. Fill the hole with steel wool and then turn the screw in firmly.

KK.

DEAR HELOISE: I keep a shower cap handy to keep my hair dry and undroopy when I have to make a quick trip out on a damp morning for the newspaper, or in a steamy kitchen.

I also wear it to keep kitchen odors out of my hair when I'm cooking.

MRS. N.C.T.

DEAR HELOISE: Here is our suggestion for keeping shoes off closet floors . . . and it is also a space saver:

Attach a deep curtain rod to the closet baseboard and rest shoe heels on rod.

This makes for a tidy closet. Yes?

TWO GIRLS FROM BOSTON.

-:-

I'll answer both of you "Yes, yes."

HELOISE.

DEAR HELOISE: I have a small apartment with many cabinets in my kitchen . . . but no place to use my food grinder.

This morning I put a folded paper over the end of the ironing board then fastened my grinder to the board. It works just fine.

J. R. W.

-:-

Wonder whatever happened to the old doughboard builders used to put in kitchens? Oh, how we wives miss them.

HELOISE.

DEAR HELOISE: If the children's sled runners are not going as fast as the child feels it should, just rub a bar of soap over the runners real hard . . . and away they go . . .

ALICE FISHER.

Midland Area Charities Group To Elect Directors

The Midland Area Charities will elect seven directors at its annual meeting Feb. 15 at 7:30 p.m. at Lincoln High School.

Steve Trbovich is president.

Named to the nominating committee to present a slate for the election were Fred G. Wilton, chairman, William I. McInerney, and Charles L. Finley, all of Midland, and Earl Rankin of Industry R. D. 1.

Directors whose terms are expiring are Charles R. Schmitt, George Bradshaw, Julius Jacob, Donald Craik, Mrs. Jack Haggerty, William Black and Lawrence Andres.

The reorganization meeting of the group will follow the annual meeting.

Directors also have adopted for a year's trial a recommendation by auditors of the United Funds of Beaver County that the Midland charities join in the centralized bookkeeping of the county unit for the billing and collection of pledges.

Six of the eight affiliated charities belonging to the county unit are already participating in the centralized bookkeeping operation while Midland and Rochester had not as yet joined. The Midland group will still have financial control under the setup.

Richard Fusco, executive director of the United Funds of Beaver County, has presented the board a statistical report of the 1964 campaign in which the Midland Area raised $62,554, or 104.6 per cent of its $59,788 goal.

The breakdown of sources of pleges shows corporate gifts amounting to $21,806, 34.9 per cent; executive and employe gifts, $36,818, 58.9 per cent, other classified gifts, $1,468, 2.3 per cent, and county credit, $2,462, 3.9 per cent.

The Midland Municipal Water Authority was the only group or firm in Midland achieving "Fair Share." There were 128 such firms in the county.

Fusco commented there is much room for progress and additional fund raising in the Midland area. Records show that over 500 persons were not solicited for a contribution and giving in several categories is below the county average.

Nile H. Wain of Midland, executive secretary, reported that payments had been made to the Midland Hot Stove League in the amount of $250 and to the United Funds of Beaver County for $13,780.50.

5 Are Favored For Rewards In W. Va. Burglary

CHARLESTON, W. Va. (AP) — Five Charleston area residents were favored Wednesday in the division of reward money stemming from the $351,000 burglary of the State Motor Vehicles Department four years ago.

Federal Judge John A. Field Jr. ruled Mrs. Mary Kathleen McIntyre of Marmet was entitled to $20,540 of the $34,540 offered for the arrest and conviction of Earl Mathews, a former Charleston bus driver.

Mathews fled with the money after burrowing through the ceiling of the department's walk-in vault. He later was sentenced to a 1 to 10-year term for the theft.

Judge Field also held that Mathews' wife, Hildegarde, should receive $5,000 of the reward put up by an insurance company.

Other persons designated in Field's opinion to share the reward included Opal Kiefer, who notified police of the car used by Mathews, $2,000; Vernie Williams, who identified the pick used to enter the vault, $5,000, and Millard Wallace, who discovered an iron bar used in the crime, $2,000.

35 At Civic Groups' Event

Over 35 attended the "meet Your Neighbor Night" sponsored by the Southern Beaver County Civic Association and Western Beaver County Area development Committee Tuesday at the Shippingport Community Building.

John Joseph president of the WBCADC, presided. A variety of subjects of interest to the southern and western Beaver county areas were discussed.

Amongthe subjects were the need for a community college and more information on the future development of the South Side Area.

The group decided to write to tthe Beaver County Planning Commission to ask that a resentative attend a meeting and give some new idea of what developments the area may expect in the future.

They suggested dates of Feb. 23 or March 23 for the meeting.

Before making any formal opinions concerning a community college, they decided to await the results of a survey by the Beaver County School Director Association as to the need for and cost of such a college.

In reviewing the many activities of the Chamber, he commended the Retail Division for an "outstanding and busy year."

He singled out various activities, including the Mother of the Year Contest, and annual Christmas activities, Car-O-Rama Days, the two semi-annual Dollar Days, and the various events the Chamber has helped sponsor, such as the visits of the TB Bus, July 4th celebration and annual community picnic.

Gengarella commended Marvin Bahm, chairman of the Retail Division, and expressed his appreciation to officers, directors and members for "helping make 1964 another successful Chamber year."

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: We are two widows in our 60s who must work to support ourselves. We both dislike shop jobs, clerking and the like. What we enjoy most (and do best) is cooking and housekeeping.

What would you think about us getting jobs as housekeepers for unmarried men—either widowers or bachelors? At this stage of life neither of us would want to take orders from a woman.

We are both respectable ladies with grown children. Please give us your opinion.—S AND A.

-:-

Dear S and A: You say you do not want to take orders from a woman. I strongly suspect you don't want to take orders from a man either. What you would like is a couple of nice, tame bachelors or widowers who would let you take over.

I'm sure there are men around who would welcome the arrangement and more power to you if you can find them.

Locked And Belted

Dear Ann: Will you settle an argument which has been going on and on and on?

My husband says we should keep the car doors locked at all times. He claims this should be done as a safety measure, to be sure the kids don't fall out.

I say the car doors should not be locked, that kids should be taught not to lean on car doors, and that disciplined youngsters do not fall out of cars.

My father, who was a well-educated man, always told us that in case of an accident it is better to have the car doors open so the person can be thrown free of the wreck. Please print your reply and settle the question.—HIM AND HER.

-:-

Dear H and H: I consulted my friends at the National Safety Council and this is what they told me:

Car doors should be locked. The person who is thrown from a wreck is about 10 times likelier to be killed or seriously injured.

A locked car door, plus a seat belt, can and does save thousands of lives every day. So lock up—and buckle up.

P.S.: Your father may have been well educated, Dearie—but on other subjects.

Girl Crazy

Dear Ann: My 18-year-old son is breaking my heart. Ira was a considerate, well-mannered boy until he met this girl six months ago. Now we can't agree on what day of the week it is.

His whole life is wrapped up in the girl and I'm sick of it. The first thing Ira does when he gets out of bed in the morning is call her on the phone. Then he goes to work.

The minute Ira comes home he calls her again, gulps his dinner and runs to her house. He stays there until all hours of the night. I can't understand why her mother allows it. The girl is still in school. On weekends he spends every waking minute over there.

When I ask Ira to do an errand for me he says he hasn't got time. He has flipped his lid over this girl and I've told him unless he straightens around he must move out of the house. Am I right or wrong?—HADDIT.

-:-

Dear Haddit: Obviously you've lost control. Now you must keep the arteries of communication open in an effort to funnel some sense into your son's head.

Be friendly and sympathetic. Don't drive him out of the house or you'll regret it. Some special counseling from a clergyman who understands boys could be useful. Get it promptly.

$44.5 Million County Share Of U.S. Budget

The Ohio Chamber of Commerce estimates the cost of operation of the federal government under President Johnson's proposed $99.7 million budget will be $44.5 million to taxpayers in Columbiana County.

The tax share for Jefferson County would be $47.4 million, according to the Chamber, which bases its estimates on information indicating Ohio pays 5.5 per cent of the total federal tax burden.

To compare the proposed tax share, the Chamber pointed out the Columbiana County retail sales total for 1963 amounted to $53.2 million.

10 Contests Face District Teams Friday; Potters Idle

Wellsville Visits Salem; Columbiana, Leopards Vie For Lead

The Potters take the night off Friday but return to action Saturday to meet their old County rival Salem.

While the Potters are resting Salem will be looking for its fourth win of the season when Wellsville invades the Salem floor Friday night.

The Tigers are in the midst of their worst season with only one victory in 10 outings.

Ten games are listed for Friday night followed by 7 Saturday.

Beaver Local and Oak Glen, a couple of teams hovering around the .500 mark will meet Friday on the Oak Glen floor.

—:—

BOTH teams are on the rebound from defeats in their last games with Oak Glen losing to the strong Weirton Madonna club and Beaver Local bowing to Springfield Local.

Stanton Local's 6 game winning streak is expected to be threatened when the Raiders travel to Southern Local to meet Al Girone's dangerous team. Stanton has made the biggest comeback of the season so far. After losing its first 6 games of the campaign, Coach Harry Diehl's club has done a complete reversal and won the last 6.

—:—

THE SHOWDOWN battle in the District tonight will be at Louisville. Columbiana meets the Leopards with the winner taking the top spot in the Tri-County League.

Both teams are deadlocked with 6-1 records and Louisville is the only team to defeat Columbiana so far this season. Louisville's only loss was to Poland last Friday night.

—:—

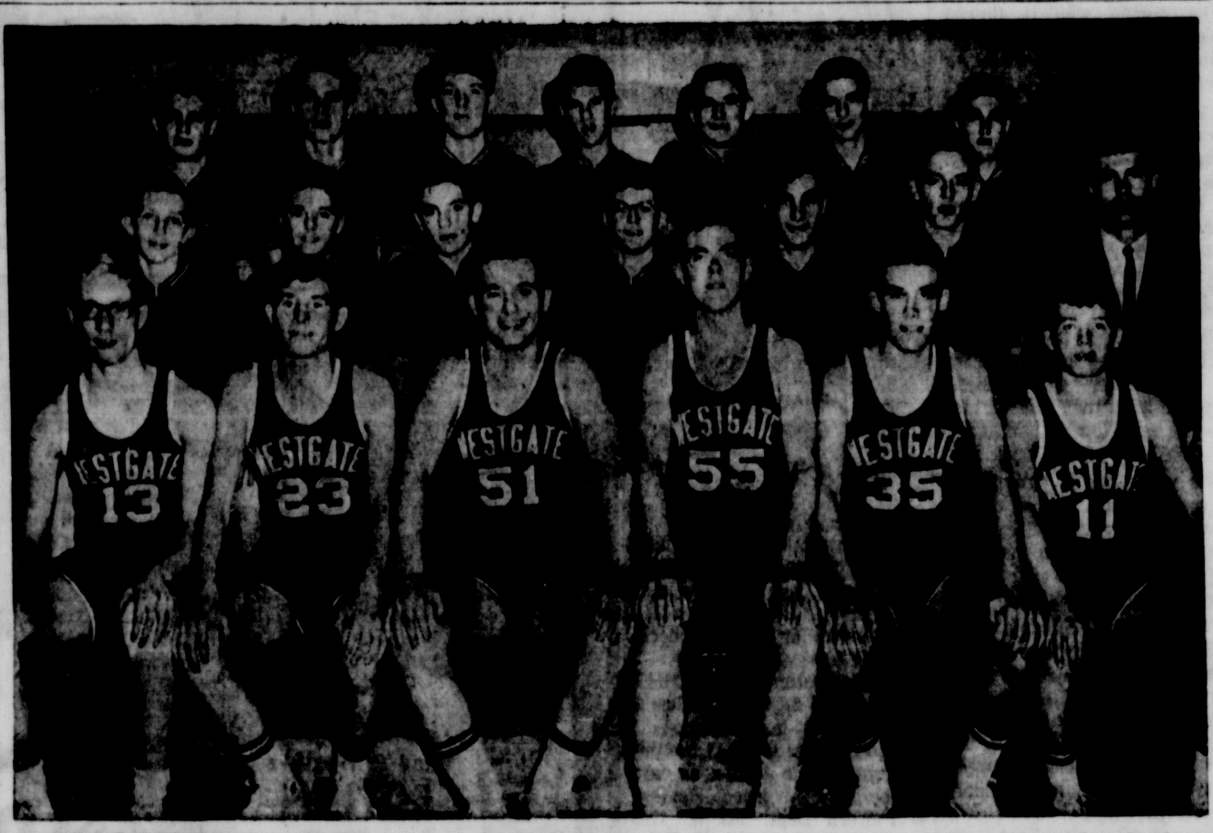

IN OTHER Tri - County action, Poland visits Leetonia with East Palestine traveling to Lisbon.

Crestview will be busy entertaining North Lima while Greenford is at United.

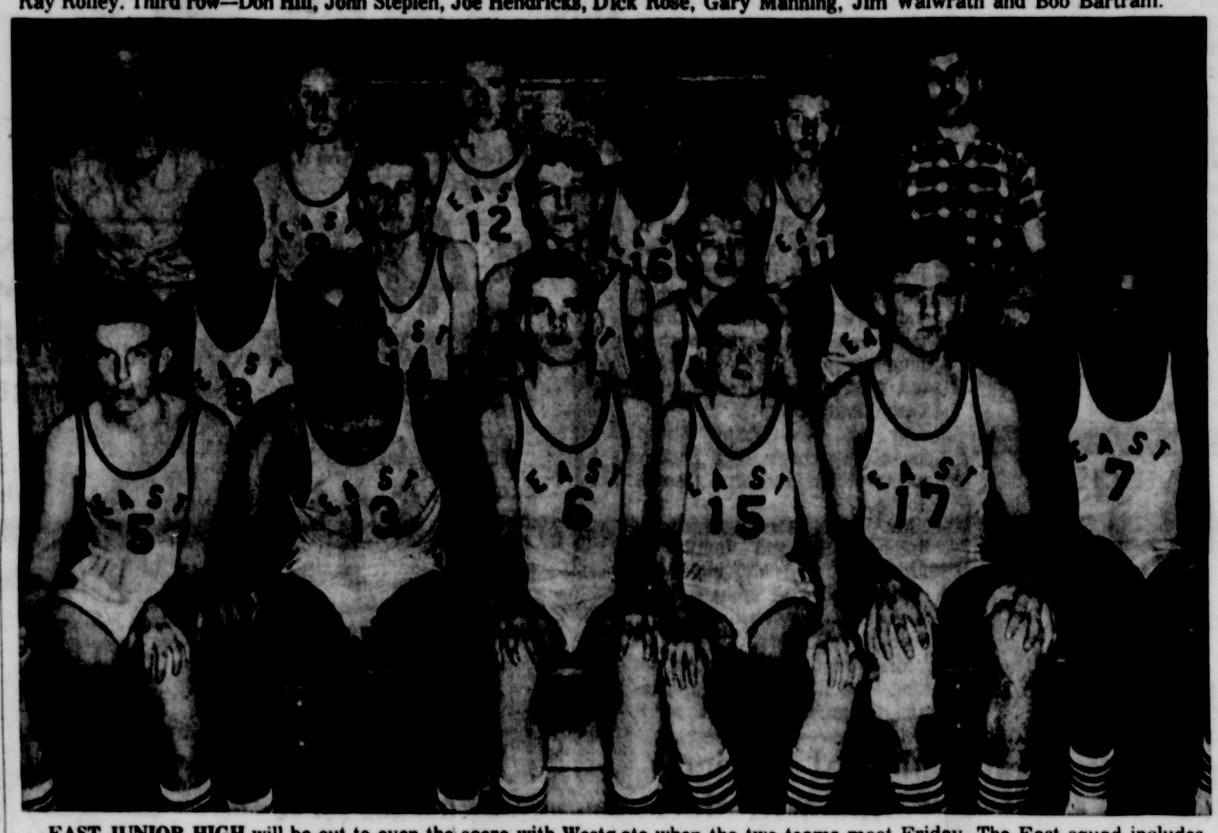

Midland doesn't play until Saturday but two other Pennsylvania teams, South Side and Western Beaver are busy. South Side goes to Avalon and Western Beaver plays host to Northwestern in an exhibition game.

Brandt Sets Scoring Mark At Western But Keeps It In Family

The school scoring record at Western Beaver was broken Wednesday night but it remained in the same family.

Ken Brandt poured 29 points through the hoop to lead Western Beaver's 66-54 victory over St. Veronica at Ambridge.

The 29 points bettered the old mark of 28 set by Ken's older brother Gary last year when he set the record against Riverside High.

Brandt dropped in 11 field goals and 7 of 9 fouls for his total and enjoyed a hot first half when he scored 29 points.

The exhibition victory over St. Veronica pushed Western's record to 14-3 for the season.

—:—

THE BEAVERS only led 15-14 at the end of the first quarter but with Brandt scoring heavily in the second period pushed the lead to 42-32 at halftime.

St. Veronica narrowed the margin to 52-46 at the end of the third period but Western Beaver was strong enough to protect the lead in the final eight minutes.

—:—

BUD PALMER was high for the Ambridge five with 13 points.

Bruce Singleton showed 8 points to his credit for Western but was valuable as the team's top rebounder.

Western Beaver's reserve team won its 10th game 49-26 with Ron Bassar 11 points leading the way.

Western Beaver will entertain Northwestern Friday night.

Bearcats Upset By St. Joseph's

BY TED MEIER
Associated Press Sports Writer

Jim Holstein paid a visit to his alma mater, the University of Cincinnati, Wednesday night. The Bearcats probably wished he had stayed in Rensselaer, Ind.

Holstein brought his St. Joseph's College of Indiana team with him and the unranked small-college Pumas upset the Missouri Valley Conference Bearcats 61-59 in one of the biggest surprises of the college basketball season.

Little 5-foot-10 Tom Crowley won the game for the Pumas with a layup in the last two seconds after Cincinnati had tied the score at 59-59 on Ken Cunningham's free throw with 11 seconds on the clock.

It was a most satisfying victory for Holstein, who played for the Bearcats 14 years ago and is in his sixth year as coach of the Pumas.

The Pumas' unexpected triumph overshadowed the 117-90 romp of the St. Joseph's College Hawks of Philadelphia over touring Centenary.

The third-ranked Hawks, the only team of The Associated Press Top Ten to see action, upped their record to 16-1 and made it a milestone in the career of coach Jack Ramsay. It was the 200th victory against 65 defeats for Ramsay, in his 10th season as coach of the Hawks.

Cliff Anderson's 27 points paced the Hawks to their sixth straight since losing to Providence. Tommy Kerwin's 30 points led the Gents from Shreveport. It was the first game of a doubleheader at the Palestra. Villanova crushed Penn 75-46 in the second game.

Big 6-11 Hank Finkel scored 28 points and grabbed 25 rebounds to lead the Dayton Flyers to a 88-72 home court triumph over Canisius. Sophomore Wes Bialosuknia of Poughkeepsie, N.Y., with 18 points, led Connecticut over Temple 71-60 at Storrs.

Alabama went two overtimes to defeat Georgia 72-67 and Arizona crushed Arizona State College 89-63.

Special Rule Allows Rodriguez To Compete

By RON BERGMAN
Associated Press Sports Writer

SAN FRANCISCO (AP) — Puerto Rican Juan (Chi Chi) Rodriguez set out today in defense of his title of the $57,500 Lucky International Open Golf Tournament after a special ruling erased a threat to his career.

Little Chi Chi thought for a time he might be through as a pro until tournament director Jack Tuthill of the Professional Golfers' Association decreed the 120-pound pepperpot may wear a special brace for his permanently injured left thumb during PGA events.

PGA rules prohibit a golfer using a device "designed to give the player artificial aid in gripping or swinging the club."

Tuthill said it doesn't apply to the brace and Rodriguez said that without it, "I can't play golf."

Chi Chi shot a one-over-par 72 in Wednesday's pro-amateur prelude on the Harding Park Municipal course, a 36-35—71 layout extending 6,733 yards. He and his three amateur partners tied for first in the pro-amateur division with a best-ball 58.

Also at 58 was Hawaiian pro Ted Makalena and his three partners. Each pro received $375 for their effort. Had the ruling gone against Rodriguez, he would have been disqualified even from the pro-am and not collected the money.

Doug Sanders won the low pro division with a 69 to collect $500. At 70 were Chuck Courtney, Kyle Burton, Ranadian George Knudson and Lionel Hebert.

Bill Casper, one of the favorites here, finished in a group of eight at 71.

Tony Lema the British Open champion, slipped to a 78. Australian Bruce Crampton, winner of the $7,500 top prize in the Bing Crosby Tournament last Sunday, shot a 73.

U.S. Open champion Ken Venturi, Jack Nicklaus and Arnold Palmer aren't playing the Lucky.

Pistons Act Like Celtics

By The Associated Press

The lowly Detroit Pistons aren't sitting back and letting the Boston Celtics do all of the winning in the National Basketball Association.

Like the Celtics, the Pistons have a three-game winning streak following their 122-108 triumph over the Baltimore Bullets Wednesday night.

The Celtics won their third straight by dumping Philadelphia 115-98. In other games, St. Louis whipped New York 117-100 and Los Angeles turned back Cincinnati 119-112.

Of course, the difference between the Pistons and the Celtics is that before its present three-game streak, Boston won 23 of 25 games.

That gives the Eastern Division leaders a phenomenal record of 44-8 compared with 20-33 for Detroit, which is lodged in fourth place in the West.

Texas Star May Quit College To Turn Pro

AUSTIN, Tex. (AP) — The war between the colleges and the professional football clubs over early signings focused today on George Sauer Jr., Texas pass receiver who says he wants to forego his final year of college to sign with the New York Jets.

Sauer's choice is complicated by the strong objection of Texas Coach Darrell Royal to the signing. Royal says officials of the Jets promise they won't sign Sauer without the coach's consent.

The Longhorn end, son of the Jets' director of player personnel, is considered a first-rate pro prospect. The senior Sauer once coached football at Baylor.

Young Sauer said Tuesday he wants to play pro ball next fall if the Jets, of the American Football League, will sign him. A math major, Sauer said he would carry 15 semester hours (usually five courses) this spring, then he hopes to finish his senior year and get his degree next spring.

Weeb Ewbank, the Jets' coach and general manager, denied Wednesday the club had offered Sauer a pro contract or had made any official overtures to sign him.

"We drafted him as a future and we've treated him as one. I can assure you he has not been offered a contract," Ewbank said in a telephone interview with the Austin American-Statesman.

East Out To Snap Westgate Streak

East Liverpool's varsity of the future will be on display Friday night when East Junior and Westgate meet in the featured game of a tripleheader at Memorial Auditorium on a night when the Potters are idle.

The East-West battle has a perfect setting with the two teams entering the struggle sporting a combined record of 24-1.

The only loss suffered by East was a 43-32 setback at the hands of Westgate last month but since that game, the East End five have chalked up 9 straight wins.

Coach Ray (Pick) Rolley's Westgate five remain undefeated through 12 contests and their unblemished streak will be at stake in the contest.

East Junior High is coached by Frank Melchioree, a former standout at Geneva College, and shows a 12-1 record.

The first meeting between the two squads in December was a close battle for three quarters with Westgate outscoring the Panthers, 13-5 in the final period.

The East-West contest Friday will follow a pair of Little Potter League games. The first game is scheduled for 7 p. m. with two teams from the 6th-7th Grade League meeting followed by two all-star squads from the 8th Grade League.

Admission for the tripleheader will be $1 for adults and 25 cents for students.

McCovey Signs '65 Pact At Reported Cut In Pay

By The Associated Press

The San Francisco Giants hope better feet will mean bigger hits for Willie McCovey in the coming baseball season.

McCovey signed his contract Wednesday and said he feels fit, a healthy improvement over last year when he was plagued with injuries to his feet and legs.

The mammoth outfielder reportedly accepted a cut in pay following a season in which he batted .220 and hit 18 homers. He said he had been taking treatments for his feet and is looking forward to spring training.

Shortstop Tony Kubek, also hit with injuries in 1964, agreed to terms with the New York Yankees. He hit a career low of .229 last year and misssd the World Series because of a sprained right hand. First baseman Mike Hegan also signed with the Yankees.

The Philadelphia Phillies, who just missed meeting the Yankees in the Series, announced the signing of four players, including catcher Clay Dalrymple. The others are outfielder Alex Johnson and pitchers Rick Wise and Dick Beck.

Cincinnati also signed four players — pitchers Billy McCool and Gerry Arrigo, first baseman Gordie Coleman and shortstop Leo Cradenas.

Chuvalo Gets Big Chance

Patterson 'Hungry' For Victory

MARLBORO, N.Y. (AP) — Floyd Patterson may be a millionaire but he still considers himself a hungry fighter.

"You can be hungry for more things than money," Patterson said Wednesday at his training camp. "There are things like vindication, victory and things like that.

"I feel these things are enough to make me hungry. I can't be considered hungry for money any more. Hunger is something you can't create. It has to be there."

When they talk about hungry fighters in boxing, they usually mean someone like George Chuvalo who, although he has held the Canadian heavyweight title, never has made it big. The Toronto fighter gets his big chance Monday at Madison Square Garden against the only man who won — and lost — the heavyweight title twice.

Patterson never has seen Chuvalo fight but he has formed an impression of his opponent while meditating at San Catri, Tony Canzoneri's old camp.

"He is very strong and aggressive," said Patterson. "He throws short, sharp punches. He takes an excellent punch and he is a very good puncher himself. He likes to move ahead and I always find it better to move forward.

"One of us is going to have to give ground. I have tried to go back but it hasn't worked out too well. A man can change his style but when he becomes over tired or is hurt he always will go back to the way he used to fight."

How does Patterson rate the 1965 Patterson with the 21-year-old Patterson who last fought in the Garden in 1956 with Hurricane Jackson?

"I am a lot stronger and I punch harder," he said. "I may have had more motions then. But I am more settled in my punching. I was a better fighter working for the title than after I got it. And I am better now than when I was the champion because I am more active."

Xavier U. May Lose Thomas For Season

CINCINNATI (AP) — Xavier University's Musketeers face the dismal prospect of finishing the basketball season without Steve Thomas, the team's top scorer.

Thomas, the nation's fifth highest collegiate scorer, fell down in the game against Duquesne Saturday night and suffered a knee injury. He had been averaging 30.2 points a game.

A team spokesman said Wednesday Thomas will enter a hospital for surgery to his right knee. He will be eligible for one semester of basketball when he re-enters Xavier next fall.

Williamson Tops Cage Poll; Wheeling Plunges To Third

By STRAT DOUTHAT
Associated Press Sports Writer

Wheeling's Wildcats finally lost a game and in doing so dropped out of the top spot in the weekly Associated Press West Virginia High School basketball poll for the first time this season.

Taking over the No. 1 position was defending Class-AA champion Williamson. The undefeated Wolfpack, now Class-AAA, received all 10 first-place votes in the survey of Associated Press sports writers and sportscasters.

Wheeling had won 10 straight and was averaging slightly below 100 points per game before losing Tuesday night, 71-69, to Moundsville. The loss dropped the Wildcats one point below Oceana's second-ranked Indians, who were third last week in the voting.

The fourth, fifth and sixth positions remained unchanged as Charleston, Dunbar and Parkersburg retained their places in last week's poll.

However, three teams at the bottom of the list a week ago dropped out of the top 10.

Defending Class-AAA champion Logan moved into the select group for the first time, ranked seventh ahead of Triadelphia, which didn't move in the standings. Huntington, seventh a week ago, lost to Logan Tuesday night and wasn't ranked this week.

Nitro, rated ninth, also made its first appearance in the top 10 and Bluefield, off and on the list for the last several weeks, moved back in again to take over 10th.

Beckley and Fairmont West, ranked ninth and 10th, respectively, a week ago, both lost during the past week and dropped from the list.

The top 10:

1.	—Williamson	100
2.	—Oceana	77
3.	—Wheeling	76
4.	—Charleston	69

Crash Damages Auto And Big Rig

A local man's auto and a tractor-trailer rig were damaged in a collision Wednesday noon on E. 3rd St. at Union St., police said.

The mishap damaged the left side of a 1955 two-door sedan operated by Bert F. Galloway, 39, of the Thompson Hotel and the right front fender and bumper of the big rig driven by George G. Davis, 28, of Washington, Pa., officers said.

Galloway told police the transmission of his car was faulty and a truck had pulled it out of a parking place in preparation for a trip to the repair shop. He said his auto started to drift and he applied the brakes, but they failed to halt the car. He said the car drifted into the intersection and was hit by the truck.

Ohioans Are Assured By Banking Official

COLUMBUS, Ohio (AP) — O. E. Anderson, the executive manager of the Ohio Bankers Association, has assured Ohioans holding certificates of deposits in the state's commercial banks that their investments are insured up to $10,000 by the Federal Deposit Insurance Corporation.

Anderson said Wednesday a misunderstanding apparently arose when the FDIC recently ruled that certain certificates of deposit in a defunct California bank would not be insured if it was found the interest being paid on them exceeded the amount permitted on savings deposits.

Miami Star Keeps Up Hot Scoring Pace

NEW YORK (AP) — Who is going to beat out Rick Barry for the major-college basketball scoring championship this season if the University of Miami, Fla., star keeps swishing the net at his current pace?

No one — well, maybe two — according to the latest weekly statistics released today by the National Collegiate Athletic Bureau. These show the 6-foot-7 senior from Roselle Park, N.J., again in first place with an average of 37.4 on 598 points in 16 games.

Only runner-up Wayne Estes of Utah State and third place Bill Bradley of Princeton, with averages of 32.1 and 31.7, respectively, are given an outside chance of passing Barry.

To do it Estes would have to average 46 points and Bradley 45.4 in their remaining 10 regular season games. Even if Barry slumped and averaged only 25 points in his last 10 regular season games Estes still would have to average 33.6 and Bradley 34.1 to gain the No. 1 spot.

Weirton Man Testifies In Hancock Case

NEW CUMBERLAND — Raymond A. Orwasky of Weirton was scheduled to testify again today as one of 15 witnesses called in a civil action for judgment on promissory notes filed against him and 21 other Weirton residents by the Weirton Savings & Loan Co.

Considered a test case, the trial is the first concerning promissory notes signed by 36 Hancock, Brooke and Jefferson County residents totaling more than $116,000.

The trial opened Wednesday morning with the seating of a jury and the savings firm rested its case yesterday afternoon after calling only Orwasky and Robert Mort, an officer of the loan firm.

Both testified concerning the note and other papers entered as exhibits by Atty. Jeramy C. McCamic of Wheeling and Atty. J. Clarence Spitznogle of Weirton, co-counsel for the firm.

Orwasky and the other defense witnesses were called to testify today by his counsel, Atty. George Bohach and Atty. Arthur Recht of Weirton.

In its suit, the company charged Orwasky with signing a note July 19, 1962, for $2,550.50. It is seeking judgment for $2,295.50 representing the unpaid balance and accured interest.

Orwasky claimed he was under the impression that he was signing as co-maker on a $2,500 note for Anthony Leon, former county assessor and Weirton resident who now resides in Brooke County.

Called to the stand by his own attorneys late yesterday, Orwasky testified that he affixed his signature to the loan document "without reading the copy."

He said Howard Lydick, then a representative of the Loan company, gave him a check for $2,500 which he endorsed and turned over to Leon.

Orwasky said he never was notified by the loan firm that the 90-day payment period had lapsed and said he was advised by another person to check his loan record.

When he went to the loan firm, Orwasky said he was informed that he had signed as a principal and not as a co-maker.

He has filed a counter - suit against the loan firm, asking $3,000 in compensatory damages and $2,000 in punitive damages.

Judge Ralph W. Pryor is presiding. The jury includes Carl Dugan Jr., Jacqueline Boyce, Dale Ash, John Abrams, Michael Mergen, Dorothy Ferguson, Arthur Matthews, John Corcoran, Mavis Kring, Walter P. Shakey, Ada Giebel and John Melott.

4 Power Firms Disclose Plans For Huge Plant

HARRISBURG, Pa. (AP)— Four electric companies today unveiled a $225-million plan to build a giant power generating plant on fuel coal beds near Johnstown and extra-high-voltage lines to send electricity into several eastern states.

They said the Conmeaugh Steam-Electric Station will be built at the mouths of mines capable of producing the 5 million tons of coal it will burn annually to generate $.8 million kilowatts of electricity.

The power will be sent through 225 miles of 500,000-volt transmission lines to the companies constituting the regional power pool known as the Pennsylvania-New Jersey - Maryland (PMJ) inter-connection.

The first of two 900,000-kilowatt generating units is expected to be completed in 1970, the second in 1971. The 500,000-volt transmission line will be ready to coincide with the start of the first generator.

State Patrol Cites 2 Men

A Rogers man and a Texan were cited by the Ohio Highway Patrol at Lisbon following two district mishaps Wednesday.

Donald L. Burson, 20, of Rogers was cited for passing without the assured clear distance after a near head-on crash on Route 154 two miles east of Negley at 2:55 p. m.

Officers said Burson, headed west, attempted to pass another vehicle when his 1960 coach collided with an eastbound 1959 sedan operated by Harold White, 32, of Industry.

Neither driver was injured, the patrol reported, and damage to the autos was moderate.

Henry Albert Martin, 37, of Houston, Tex., was cited after his semi - trailer rig struck the rear of an auto on Route 644 a half mile south of Kensington at 3:35 p. m.

His rig hit the back of a 1961 coupe operated by Dorothy Stuckey, 48, of Kensington, who had slowed and stopped for a school bus, the patrol said.

Martin was charged with failure to stop in the assured clear distance.

Hancock County dog owners *were reminded today by Anthony Pirraglia, assessor,* that they have until July 1 to acquire new licenses for their canines.

Despite the change, Pirraglia said many county residents continue to purchase their licenses in January. He said he wants to change the setup so the licenses cover the period from July 1 to June 30.

Richard A. Peters, 22, of 1172 Harker Ave. was fined $50 and costs today by Municipal Judge Samuel M. Chertoff when he pleaded guilty to a charge of reckless driving through East End on Christmas Day.

Acting on the motion of Asst. Solicitor Richard Clark, the court dismissed a second charge of "knowingly resisting a police officer in the lawful execution of his duties." Both charges were filed by Patrolman Paul A. Burson.

Questioned by Atty. Lawrence W. Smith Jr., defense counsel, Officer Burson testified that Peters did not resist physically. After halting the defendant, the officer was dispatched on another call to Mulberry St. and he instructed the defendant to report to police headquarters, but he did not comply, Burson explained.

The judge also requested a look at Peters' driver's license, but his counsel explained it is under suspension. The youth and his parents have sought insurance under the Ohio "assigned risk" plan in order that the permit can be restored, but they were told the insurnace application would not be acted upon until the traffic case was disposed of, the attorney explained.

"You have been fortunate in this court, but we have just about reached the end of the rope with you," the judge told Peters after pronouncing sentence. "If you are brought in here again for any traffic violation — even crashing a traffic light or a stop sign — the court will endeavor to put you behind bars."

Officer Burson's affidavit on the reckless driving charge alleged that Peters "drove east on Pennsylvania Ave. from Central Ave. at high speed on wet pavement and passed three other cars and finally was halted at Putnam St."

Senate Asked To Check Ban On UAR Food

WASHINGTON (AP) — The Johnson administration has launched an all-out drive in the Senate to reverse the ban on sale of surplus food to the United Arab Republic voted by the House.

All 100 senators were invited but only about one-third attended a hurriedly called meeting Wednesday to hear Secretary of State Dean Rusk argue for a reversal.

The administration contends that if the Senate goes along with the House the effect would be to limit President Johnson's flexibility in dealing with UAR President Gamal Abdel Nasser.

Senators said Rusk also argued at the closed session that the House action is an attempt to "usurp" the President's authority in the area of foreign policy.

The 204-177 House vote Tuesday was the first test in the new Congress of the overwhelming Democratic majority, and when the chips were down this majority blew apart. Voting for the ban were 128 Republicans and 76 Democrats; voting against the ban were 177 Democrats.

It was difficult to measure how much headway Rusk may have made Wednesday. It is also difficult to determine why the House did what it did, although some things are obvious.

There is strong resentment against Nasser, who told the United States last month the UAR does not need America's money and "anyone who does not like our attitude can drink from the sea" — which translates roughly to "go to hell."

The combative stance Nasser takes toward Israel hurts him among those Congress members who view Israel as a democratic state and the UAR as a threat to stability in the Middle East.

What the House did was to amend an agriculture appropriation bill to bar shipment of surplus farm goods to the UAR. The author of the amendment, Rep. Robert H. Michel, R-Ill., said it covers $37 million in wheat, tobacco and vegetable oils still to be shipped to Cairo under an agreement that expires in October.

Mrs. Esterly, retiring president, welcomed the 70 attending and Walter Hunston, former county commissioner, introduced Mrs. Letha Astry of Salem, 18th District Central committeewoman; Mrs. Vida Davies, county GOP vice chairwoman; Robert Bell of Steubenville, district state committeeman, and George Crim of Bergholz, state young Republican vice chairman.

Assembler For GE Wins Over Machine

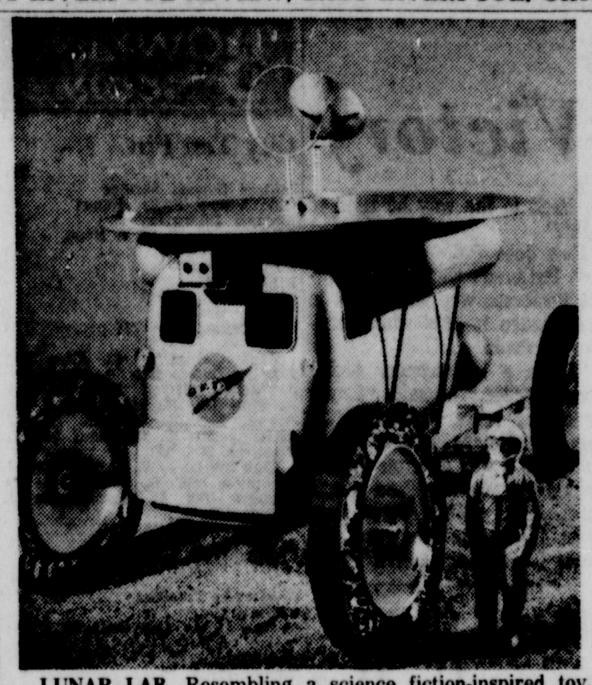

CINCINNATI, Ohio (AP) — Les Molen is a man who won over the machine.

Molen, an assembler in the large jet engine department of a General Electric plant here, came up with a time-saving suggestion which eliminated four expensive machines.

The machines, called electronic protractors, were used in automated assembly of jet engine rotor vanes. But they were temperamental and often needed repair.

Molen devised a way to replace them with wooden templates, cutting about three hours off engine assembly time.

Molen's victory over automation earned him $2,400 from the

Ohio taxpayers may use this state sales tax table as a guideline when filing their 1964 Federal income tax returns, C. W. Glotzbach, acting district Director of Internal Revnue, announced.

The table shows the average amount of state sales tax paid by Ohio residents and may be used by taxpayers who itemize their federal income tax deductions. Similar tables have been prepared for 36 other states and the District of Columbia.

For the first time since 1960, when the tables were originally issued, there has been a general revision of the amounts, Glotzbach said. The latest tables are based on summary data showing the patterns of consumer expenditures developed by the Bureau of Labor Statistics from a 1960-61 study. Previous tables were based on a 1950 study.

Previously, tables were revised only to reflect changes in sales tax rates for the commodities covered by the particular state's laws.

The recent study shows that household operations, property taxes, medical care, personal care services, education and insurance have, for the most part, comprised a large part of the total consumer expenditures in 1960-61 than they did in 1950. These items are not usually subjected to state sales tax.

State Treasurer John Herbert said taxpayers may deduct Ohio sales taxes without proof if they use the accompanying table. He said other state taxes properly deductible are personal property and real estate taxes and 7 cents a gallon state gasoline tax.

Floor Wax Developed For Operating Rooms

TENAFLY, N. J. (AP) — A floor wax designed to dissipate static electricity and thus reduce danger of fire or shock has been developed here by researchers of the Penetone Division of Amerace Corp.

The company also has introduced a germicidal cleaner which it said is effective against a wide range of bacteria and fungi. It is said to be useful in minimizing the incidence of infections of staphylococcus aureus, the "golden villain" that has been known to hit hard even spotlessly clean hospitals.

Both products are meant especially for hospital operating rooms, as aids in fighting fires and the threat of staph infections.

Probe Asked Of Reds In Dock Union

BALTIMORE, Md. (AP) — A Department of Labor official says he will ask the FBI to investigate possible Communist infiltration in the AFL-CIO International Longshoremen's Association, following a rejection Wednesday of a proposed contract by Baltimore dock workers. The Maine to Texas dock strike continues.

The workers voted 1,371 to 1,016 against accepting a contract offered by the Steamship Trade Association of Baltimore. The action insures continuation of the 18-day-old walkout under an ILA policy of no work at any port until agreement is reached at all. Sixty thousand ILA members are on strike on the Atlantic and Gulf Coasts.

Asst. Secretary of Labor James J. Reynolds Jr., who was meeting today with negotiators in Galveston, Tex., said Wednesday night that he had evidence and reason to believe persons allied with communism purposely prolonged the waterfront strike to damage the nation's economy.

"I propose to request the FBI to look into both the New York and Baltimore situations and anywhere else there were indications of subversive activities," Reynolds said.

New York dock workers at first rejected the agreement, then ratified it last Thursday.

Negotiators in New Orleans reached agreement Wednesday on a new contract and union spokesmen indicated the membership would vote on it Friday. The proposed contract reportedly was for the same 80-cent-an-hour package accepted by Port of New York dock workers and the one rejected by Baltimore longshoremen.

A discussion of the firemen's dependency fund was held with George Boston, chief of the Washingtonville department and a representative of the County Firemen's Association, relating a hearing in Columbus when a case was reopened.

About 14 attended the meeting with Robert Parker, president, in charge.

Fr. Kolp will assume his duties as pastor of St. Bernadette Parish in Masury Friday and will be succeeded by Fr. Patrick Dempster, who has been assistant pastor at the St. Rose Parish in Girard.

Palestine Bank Eyes New Branch At Negley

Bringing Up A Family

By DR. GARRY MYERS

Tutoring Can Help Lagging Child

If your child in the middle grades, upper grades, high school or even in college, is seriously lagging in one or more subjects, you may resolve to seek special help for him. You may decide to give him such help at home yourself or seek the guidance of an expert to advise you on a helping program. You may choose to take him to a special clinic, such as a reading clinic, for help.

Dr. Garry Myers

You may employ a tutor for this child. You may just hound him to work harder and abuse him if he doesn't. Or you may do nothing but just trust to luck.

If your lagging child is in the elementary grades, you surely should confer with his teacher or teachers. You and the guidance person there available should get all the information you can and consider carefully the advice received.

—:—

WHETHER your advice comes from the school or an outside source, you should try to weigh carefully the available facts on this child's ability to achieve in any or all subjects as well as you have expected him to achieve.

There seems to be an increasing number of teachers in our elementary schools who are eager for parents to seek outside help for the lagging child. However, judging from many letters I receive, there is considerable resistance by teachers to efforts by parents to seek outside help.

Often I read letters saying that the school assures the parent of the lagging child, "We can take care of this problem here." But a number of these letters add, "We accepted this advice for a number of years and have become disillusioned."

No doubt there's a big human and psychological problem involved. Some teachers, principals and guidance persons may feel that, if they admit that any child could profit from outside help, this admission might suggest they are not doing a good job at their school.

—:—

BUT why should they be expected to provide all the extra help so many of their children need? Why should they so often expect of themselves the, obviously, impossible? Why should they not be eager to encourage all available help for every child who might profit from such?

One big thing the school might do to aid parents find special outside help for the lagging child is to guide these parents in finding the best help and to be ready to persuade the tutor or helping source to set this child to do only what he is able to do.

So many tutors helping the child outside of school fail to go back repeatedly with the child in any subject to find rock bottom and bring him forward from there, but just keep him doing what he has found too hard for him to succeed at.

If, for example, the child of the third grade lags in reading, this tutor may have him read more at this grade level.

—:—

INSTEAD, he might do better on reading materials of the second grade, first or even primer difficulty, and gradually come forward from there.

No matter in what grade a lagging child is in at school, he needs to be practiced at a level at which he can enjoy success. He must be able to succeed in order to keep striving toward greater success.

My bulletins, "Home Helps in Reading, Spelling and Arithmetic," and "Helping Child with Lessons at Home," may be secured by sending a self - addressed envelope to me in care of The Review.

Keep In Trim

By IDA JEAN KAIN

You May Be Within An Inch Of Your Goal

Enthusiasm, combined with a goal, generates almost magic force. The realization that 10 to 16 pounds off will actually let you slip into a dress one size smaller, adds a fillip to your slimming adventure.

Ida Jean Kain

The figure controlling measurements are bust, waist, abdominal extension and hips. There are standard differences between sizes in these specific measurements.

The Misses' Size Range: From one size to the next, the waist measurement varies from one inch in smaller sizes to two inches in the larger sizes. The abdominal extension varies from one and a half inches in the smaller sizes up to two inches in the larger sizes. The bust variation is one and a half inches from size to size up to size 16, and two inches through size 22. The hip variant for all sizes is the same, two inches from one size to another.

—:—

IF YOU wear Misses' sizes, you can use these measurement differences as a basis for figuring your proper body proportions.

Since size 14 is popular, let's examine specific measurements for that size as a basis.

Size 14, tall, regular, short: Bust, 35½; waist, 27; abdominal extension varies from 34 on the tall, 34¼ regular, to 34½ on the short model. Hips, slender 36, regular 38, full hips 40 inches.

The Women's Size Range: From size 30 through 36, there is a 2-inch difference in each of the basic measurements from one size to the next. From size 38 up to larger sizes, the waist and abdomen increases faster size to size. That's where the figure spreads.

—:—

WE'LL TAKE size 34 as a basis to go by. Size 34, tall and regular:

Bust, 37; waist, 29; abdominal extension varies from 36½ inches on the tall to 36¾ on the regular. Hips, slender hips 36; average 38, full hips 40 inches.

With overweight, all your measurements will be too ample, but chances are some proportions will be more out of line than others. Could it be the waist measurement that needs trimming? That's tomorrow's story.

SLIMMING PATTERN

Breakfast: orange juice, ½ cup (4 oz.), scrambled egg, plus 2nd egg white, toast (1 thin slice) butter or margarine, (½ pat) dietetic marmalade, hot coffee, black. Total calories 230.

—:—

LUNCHEON: vegetable soup, (1 cup), melba toast, (2 slices) cottage cheese, (½ cup), strips of green pepper, radish slices, lettuce, tart apple, hot tea, lemon. Total calories, 315.

Dinner: Broiled or baked swordfish steaks (4½ oz. ck. wt), Or: Cube steak, pan broiled baked potato, (½) butter, or margarine, (½ pat) spiced beets, (½ cup) cole slaw, Spanish cream. Total calories, 440.

Total calories for the day will be 1070.

4 Ohio Pastors Accorded Honor

COLUMBUS, Ohio (AP)—The Ohio Council of Churches awarded the organization's highest honor, lifetime membership in the Ohio Pastors Convocation, to four ministers Wednesday.

Presented at the closing session of the convocation, the awards went to:

Dr. Clayton F. Lutz of Columbus, superintendent of the Ohio Southeastern Conference, Evangelical United Brethren Church; Dr. Elam Wiest of Cleveland, executive minister, Western Reserve Association, United Church of Christ; Dr. Urston M. Youth Escapes Jail In Warren County

LEBANON, Ohio (AP)—Kenneth Whisman, 16, of Franklin, being held in the Warren County jail here on breaking and entering charges, escaped Wednesday by sawing through bars in a window, the sheriff's department reported.

Capt. Roy Wallace said the youth escaped sometime Wednesday afternoon but was not missed until about 7 p.m. when a probation officer asked to see him.

Wallace said saw blades apparently were passed to Whisman through a window by another prisoner who was released earlier.

Abel Takes USW President Bid To Ohio Steel Areas

LORAIN, Ohio (AP) — I. W. Abel, declaring he is confident he will win his battle to unseat David J. McDonald as president of the United Steel Workers Union, brought his election campaign to the Cleveland-Lorain area Wednesday.

Abel, the secretary-treasurer of the USW, was greeted by an audience of more than 1,000 when he appeared at a rally Wednesday night in Clearview School. He has received strong support in northern Ohio, and USW Local 1104 here endorsed him for president of the 950,000-member union.

Paul E. Schremp, director of the USW Cleveland-Lorain District 28, and John S. Johns of Canton, the District 27 director, were on hand when Abel met newsmen earlier at a press conference in Cleveland.

Asked if McDonald was waging a dirty campaign, Abel acknowledged that the campaign was rough enough to be called dirty. He said McDonald is "waging a campaign of complete frustration because he realizes he is fighting a lost cause."

Newspapers Set Gag Rule Battle In Pennsylvania

By The Associated Press

An appeal for public support for a drive by Pennsylvania newspaper publishers and editors has been made to protect and expand freedom of information.

James Stevenson, president of the Pennsylvania Newspaper Publishers Association, said a Freedom of Information Committee has been organized to marshal news media against a new rule in Pennsylvania courts.

The rule, issued by the state Supreme and Superior Courts effective Jan. 1, prohibits taking of photographs and use of recording equipment during hearings before judges, magistrates, aldermen and justices of the peace.

Stevenson said formation of an Information Council, including representatives of the public, is also being considered.

Co - chairmen of the new committee are William Strasburg, publisher at Ft. Washington, and Donald Keith of the Easton Express.

New Auto Plates Due Pennsylvania Drivers

HARRISBURG — The Bureau of Motor Vehicles has begun mailing registration renewal forms for passenger vehicle license plates, which will be issued this year for the first time in seven years.

The new plates will be gold with blue letters — reverse of the pattern of the present plates, which were issued in 1958. Yearly stickers for registration have been issued in intervening years. Some 4.8 million forms will be mailed for the plates to be displayed by April 1.

ANNOUNCEMENTS

2 IN MEMORIAM

IN loving remembrance of our dear Wife, Mother, Grandmother, and Great Grandmother, Emily McDowell, who was called home 10 years ago today: Sad and sudden was the call, of one so dear and loved by all. Her loving heart had ceased to beat, before we knew it, she was gone. A bitter grief, a shock severe, to part with one we loved so dear. God loved her too and thought it best, so He took her home to eternal rest. But only those who loved her best can tell, the heartache of not saying a last farewell. Lovingly; her husband, Joseph, Children, Grandchildren, and Great Grandchildren

Junior Editors Quiz on STARS

QUESTION: Will Polaris always be the North Star?

★ ★ ★

ANSWER: Polaris is a very useful star to know about, because, as the earth revolves, the other stars appear to change their positions, while Polaris stays in the same place. This is because the axis of the revolving earth, at least the part which extends toward the north, points to the spot in the sky where Polaris shines. For this reason, if we can find which star Polaris is, we will always know that we are facing north when we are looking at it. This would help a person find his way if he ever got lost on a clear night. Bill is showing his sister, in the picture, how to find Polaris. "The big stars of the Great Dipper (left) are easy to find," Bill is saying. "The two fingers of my left hand represent the outer stars of the cup part of the Dipper. Imagine a line running through them, such as I am pointing with my right forefinger. The next star out on this line is Polaris, the Pole Star."

As the earth spins, it also wobbles back and forth, something like a top slowing down. For this reason, it's axis moves very slowly, in a circle, and does not always point to Polaris. 3000 years ago, the Pole Star was Alpha Draconis; 2000 years ahead, Alpha Cephei will be the Pole Star.

★ ★ ★

FOR YOU TO DO: Go out on the clear night and see if you can locate Polaris, using Billy's system.

★ ★ ★

Douglas Webster of Greencastle, Pa., wins today's combined prize of Compton's Illustrated Science Dictionary plus $10 cash for this question. Mail yours on a postcard to Junior Editors in care of The Review and you may win the weekly grand prize of Compton's Pictured Encyclopedia.

Out Of The Air

By RICHARD K. DOAN

Peyton Place—A Kiddie Show

ABC's popular and controversial twice-weekly nighttime soap opera, "Peyton Place," is big with the teen-agers, but the adults aren't charmed by it, according to a 30 - state canvass of viewing preferences.

Richard Doan

The American Council for Better Broadcasts, with headquarters in Madison, Wis., said it based its findings on 43,984 "opinions" of national TV shows sent in by 3,564 adults and 4,186 teen-agers.

-:-

NBC'S "Bonanza" was found to be the most popular show among adolescents and the second most popular among grown-up groups.

The Huntley-Brinkley newscasts on NBC ranked second with the teen-agers and third with the adults.

Walt Disney NBC shows were the adults' No. 1 choice, but only eighth in line with the younger crowd.

"The Fugitive" and "Mr. Novak" also placed in the top 10 with both categories of viewers.

But there they parted company. Whereas "Peyton Place" ranked sixth in popularity with the juveniles, it did not even make the upper 30 among adults.

-:-

ABC'S rock 'n' roll show, "Shindig," understandably placed fourth on the teen-agers' list and didn't score with parents.

Again unsurprisingly, the adults' fourth choice was Lawrence Welk.

Others exclusively in the adult top 10: Dick VanDyke, Andy Griffith, "The Telephone Hour" and Danny Kaye.

Others exclusively in the teen-agers' top 10: "Bewitched," Patty Duke and "movies on TV."

Something that has been suspected by some industry observers for a long time seemed to be borne out in the findings: That some "children's shows" are more appreciated by parents than by their offspring.

-:-

THE COUNCIL reported that the 11th most popular series among adults was "Captain Kangaroo." The 17th series on the adult list was Leonard Bernstein's "Young People's Concerts."

The monitors who balloted in the survey were permitted to grade what they regarded as "poor" shows with minus scores and excellent, good and fair shows with plus scores.

The effect on "Peyton Place": Plus 516 with teen-agers, minus 2 with adults.

-:-

IN SOME far-flung places like Finland and Venezuela, the natives have been paying their hard-earned cash at the movie box office to see an episode of NBC's "The Man from UNCLE."

And the turnout hasn't been bad. Although a report that showings in 10 localities grossed more than $1.75 million has been scotched, MGM, which produces the series, is understood to have realized at least half that amount in the grosses.

"Man from UNCLE" is an hour-long weekly adventure series starring Robert Vaughn and frankly capitalizing on the James Bond range for tongue-in-cheek international intrigue.

-:-

MGM SIMPLY padded out one episode to minimum movie length and shipped it out, as an experiment, to movie exhibitors in Australia, Hong Kong, Japan, Malaya, the Philippines, Thailand, Italy, Finland, Panama and Venezuela.

The test reportedly was designed as much to develop interest in the TV series, preceding possible introduction of the show in these countries, as to see whether individual episodes could be peddled as feature pictures.

Parents Set Choir Formal For April 30

The annual choir formal was set for April 30, at Virginia Gardens in Chester, at a meeting of the ELHS Choir parents Tuesday evening in the choir room at the Memorial Auditorium.

Mr. and Mrs. William Savage, social chairmen, will be in charge.

As fund - raising projects, the organization set a Tag Day for April 10, and a rummage sale, with date and place to be announced later.

The choir parents, along with the band parents, will be in charge of lunch for the all-day rehearsal of the Columbiana County Music Festival Feb. 20, and the dinner the day of the concert, Feb. 26, both at Westgate.

A meeting of the combined committees for the affair will be held Wednesday at 7:30 in the choir room.

Glen Hall, vice president, presided in the absence of George Smurthwaite, president, who was ill.

Here Are Highlights Of Economic Message

WASHINGTON (AP) — Here are textual highlights of President Johnson's economic message to Congress today:

"I am pleased to report that the state of our economy is excellent; that the rising tide of our prosperity, drawing new strength from the 1964 tax cut, is about to enter its fifth consecutive year; that, with sound policy measures, we can look forward to uninterrupted and vigorous expansion in the year ahead."

"The record of our four past years has been one of simultaneous advance toward full employment, rapid growth, price stability, and international balance. Since 1960 a new factor has emerged to invigorate private efforts. The vital margin of difference has come from government policies which have sustained a steady, but noninflationary, growth of markets."

"The promise of the tax cut for 1964 was fulfilled. Production, employment and incomes jumped ahead. Unemployment was whittled down steadily."

"The task of economic policy is to create a prosperous America. The unfinished task of prosperous Americans is to build a Great Society."

"Purposeful expenditures, stimulative tax reduction and economy in government operations are the three weapons which, if used effectively, can relieve our society of the costs and consequences of waste."

"I do not believe recessions are inevitable. We can head them off, or greatly moderate their length and force — if we are able to act promptly. The Congress could reinforce confidence that jobs and markets will be sustained by insuring that its procedures will permit rapid action on temporary income tax cuts if recession threatens. At such a time, it may be appropriate to employ idle or potentially idle resources in sound programs of public expenditure."

Bethlehem Says 1964 Earnings Increased 45%

NEW YORK (AP) — Bethlehem Steel Corp., the nation's second ranking producer, reports 1964 earnings of $147,944,000, or $3.11 a share, a seven-year high.

The results compare with $102,462,000, or $2.11 a share, cleared in 1963. The 45% gain they reflected was one of the biggest achieved by major steelmakers which have reported so far.

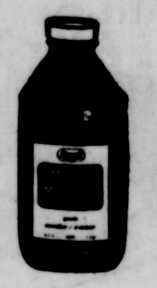

In the fourth quarter, Bethlehem netted $43,016,000, or 91 cents a share, up from $36,133,000, or 76 cents a share in the like preceding period.
